A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah Kramer 2024-08-19 This book describes in detail how to develop successful programs of nursing mentorship, utilizing concepts of caring that yields a strong, caring body of nurses who will be "nurse thrivers" as they find fulfillment and meaning in their professional commitment and will train others to do the same. The mentorship program is the ticket to success that many students need to complete their degree program, prevent burnout, pass the nursing NCLEX examination, and remain in the workforce after graduation. The current attrition rate in baccalaureate nursing programs is 25-50%, as is the attrition rate in the first 2 years of employment of new RN's entering the workforce. Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program. Creating a community of learners with caring and support creates an environment that fosters academic engagement and success. The unique aspect of this book is its focus on creating a caring environment to support the students; helping them develop caring skills, empathy, resilience and their own self-care; developing the skills for success beyond their educational process into the workforce. This book integrates all patterns of knowing - personal, aesthetic, empiric and ethical - and provides the missing link of peer mentorship necessary to the development of resilient, emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care. This is a must have resource for transformation of nursing education in the next century! Foreword by Dr. Margaret McClure.

The Nurse Professional Deborah Dolan Hunt 2014-10-24 “Nursing school did not adequately prepare me for this role” and “Why didn’t anyone tell me about this when I was a student?” are commonly heard complaints from new nurses during their first two “rite of passage” years following graduation. But this transition to professional practice—fraught with challenges, anxiety, triumphs, and tears—does not have to be so difficult. The Nurse Professional helps novices prepare for their transition into a “real world” role from being a student through graduation, NCLEX success, job search, first job, and beyond. It is the only book to cover all of the steps that new nurses must take to ensure a smooth transition into the professional role. The author is a nurse educator and mentor with extensive experience in recruiting and orienting nurses. Dr. Hunt is also co-founder of the Nurse Advocacy Forum, providing advocacy, support, networking, professional development, leadership, and mentoring to students and new graduate nurses. She offers sound advice regarding the most current issues facing new nurses and practical strategies for obtaining a job of one’s choice, describes steps to take well before graduation to ensure a smooth transition to professional practice, and addresses the various indicators of academic achievement that are required for employment at some nursing facilities. She also discusses the benefits of externships, internships, professional development, and networking, how to develop a winning portfolio, and how to successfully transition into professional practice. This book provides information on workplace bullying and how to deal with it; the importance of self-care, self-advocacy, and networking; writing a résumé; interview skills; and much more. “Top 10 Tips” in each chapter concisely highlight important topics. Samples of useful forms and documents are available in chapter appendices. A PowerPoint presentation and templates for role play/simulation scenarios for faculty use are also available. Key Features: • “Top 10 Tips” in chapters concisely highlight important topics • Samples of useful forms and documents are available in chapter appendices • Delivers specific, practical strategies and exercises for a successful transition and entry into practice • Written by an experienced nurse/educator and nurse mentor who has extensive experience regarding how new nurses transition into practice
