2023-03-13 This book outlines how African language media is affected by politics, technology, culture, and the economy and how this media is creatively produced and appropriated by audiences across cultures and contexts. African language media can be considered as a tool for communication, socialization, and community that defines the various identities of indigenous people in Africa. This book shows how vernacular media outlets including radio and television, as well as native formats such as festivals, rituals and dance, can be used to influence all facets of local peoples' experience and understanding of community. The book also explores the relationship between African language media sources and contemporary issues including the digitalization conundrum, peace and conflict resolution, identity formation, hate speech and fake news. Furthermore, it shows how local media can be used for development communication purposes during health and environmental crises. The book includes cases studies demonstrating the uses, experiences and activities related to various forms of media available in African languages. This book will be of interest to scholars in the field of communication and media studies, health and environmental communication, journalism, African studies and anthropology.

West African Poetry Robert Fraser 1986-09-04

Previous studies of African poetry have tended to concentrate either on its political content or on its relationship to various European schools. This book examines West African poetry in English and French against the background of oral poetry in the vernacular. Do the roots of such poetry lie in Africa or in Europe? In committing their work to writing, do poets lose more than they gain? Can the immediacy of oral performance ever be recovered? Robert Fraser's account of two centuries of West African verse examines its subjugation to a succession of international styles: from the heroic couplet to the austerity of experimental Modernism. Successive chapters take us through the Négritude movement and the emergence of anglophone free verse in the 1950s to the rediscovery in recent years of the neglected springs of orality, which is the subject of the concluding chapter.

**Beyond African Orality** Fallou Ngom

2025-09-12 Beyond African Orality offers the first English translation and interpretation of sixty Wolof Ajami poems (Wolof written with an enriched form of the Arabic script) by Sëriñ Mbay Jaxate (c. 1876-1947), a follower of the Senegalese Muridiyya Sufi order founded by Shaykh Ahmadu Bamba Mbàkke (1853-1927). Sëriñ Mbay Jaxate was one of the greatest Sufi poets of Africa — a wise moralist and an astute social critic, he kept a sharp eye on his compatriots and the unfolding historical, cultural, and religious transformations in his society. His poems focused on praising the virtues of his Sufi master, Shaykh Ahmadu Bamba, and fostering the pursuit of spiritual and moral excellence, which he construed as the best investment to achieve success in this life and paradise in the hereafter. His Ajami poems capture every facet of rural Wolof farming communities of his time. To communicate more effectively with his audiences, he deployed

numerous metaphors drawn from the local fauna, flora, livestock, farming activities, planting and harvesting seasons, sports such as wrestling and target shooting, hunting, culinary habits, and the climate. Unlike his Muslim colleagues who often code-switched between classical Arabic and the local lingua franca of Wolof and included Quranic or Arabic liturgical quotes in their poems, Sëriñ Mbay Jaxate opted to minimize Arabic structures in his work, preferring rural Wolof words for more efficient communication with his agrarian African audiences. His work demonstrates how Ajami has served as a key literary medium and source of knowledge in Muslim Africa.

[African Acrostics](#) Avis Harley 2012-03-13 "This belongs in every collection — for the poetry, for

the photographs, for the information." — Kirkus Reviews (starred review) Illustrated with gorgeous full-color photographs, this collection sends poetry buffs and animal lovers on an armchair safari they'll never forget. Spot the elusive double acrostic (in which the first and last letters of each line spell a message), the cross acrostic (in which the message is read diagonally), and the multiple acrostic (you have to see it to believe it)— not to mention lions, zebras, crocodiles, hippos, and elephants. Oh, my! Back matter includes information about acrostics, nature notes, and a photographer's note.
