Cloud Computing and Security Xingming Sun 2018-09-25 This six volume set LNCS 11063 - 11068 constitutes the thoroughly refereed conference proceedings of the 4th International Conference on Cloud

Computing and Security, ICCCS 2018, held in Haikou, China, in June 2018. The 386 full papers of these six volumes were carefully reviewed and selected from 1743 submissions. The papers cover ideas and achievements in the theory and practice of all areas of inventive systems which includes control, artificial intelligence, automation systems, computing systems, electrical and informative systems. The six volumes are arranged according to the subject areas as follows: cloud computing, cloud security, encryption, information hiding, IoT security, multimedia forensics

People and Pixels National Research Council 1998-05-21 Space-based sensors are giving us an ever-closer and more comprehensive look at the earth's surface; they also have the potential to tell us about human activity. This volume examines the possibilities for using remote sensing technology to improve understanding of social processes and human-environment interactions. Examples include deforestation and regrowth in Brazil, population-environment interactions in Thailand, ancient and modern rural development in Guatemala, and urbanization in the United States, as well as early warnings of famine and disease outbreaks. The book also provides information on current sources of remotely sensed data and metadata and discusses what is involved in establishing effective collaborative efforts between scientists working with remote sensing technology and those working on social and environmental issues.

Fundamentals of Financial Accounting Fred Phillips 2007 What does it mean to have a great coach? When you are first learning financial accounting, having a great coach means having the ongoing support, direction, and motivation necessary to ensure your success. The Canadian edition of Fundamentals of Financial Accounting is like your personal coach. It provides you with the tools that you will need - to make sense of business activities, and to help you prepare and interpret

financial information in an accurate and relevant way. The Canadian companies and examples used in this text bring Financial Accounting to life. What could be more Canadian than Tim Horton's or the National Hockey League? Fundamentals of Financial Accounting provides an accessible and balanced introduction to financial accounting, targeting mid to lower level universities, university colleges and a select number of colleges who are transitioning from a principles based to a financial based accounting course. In the long term, as a growing number of colleges adopt a financial accounting curriculum, Phillips will be an optimal solution and the most student friendly book in the market due to the coaching focus. Through unparalleled pedagogy and the most engaging writing style on the market, this text will act as a personal coach outside the classroom, working to ensure every student's success.

Entrepreneurial Communities and Ecosystems Morgan R. Clevenger 2022-06-24 Entrepreneurial Communities and Ecosystems: Theories in Culture, Empowerment, and Leadership examines the deep sociocultural dynamics supporting effective and emergent entrepreneurial ecosystems and communities for a new generation of ecosystem builders and researchers. The book provides current theories and discussion with relevant examples regarding culture, empowerment, and leadership in entrepreneurship to build more entrepreneurial communities anywhere, beginning with any set of local advantages. It clarifies the role of community in building an entrepreneurial ecosystem, and expands the theory on how entrepreneurial communities and ecosystems differ, and how they relate. The book also illuminates the often avoided discussion about power, with special attention to diversity with examples of Black, women, and LGBTQA+ entrepreneurship; provides a deep dive into the range of formal and informal education framed as entrepreneurship; ties the importance of entrepreneurship and entrepreneuring to resources available at the community, state, and national levels; and introduces a new concept — omnipreneurship — which puts the skills of entrepreneurship in the service of global benefit and everyday action. This research volume will be equally useful as an undergraduate or graduate text on the sociology of entrepreneurs and entrepreneurship as

it is a field guide for ecosystem builders, policy makers, nonprofits, and entrepreneurship and social researchers worldwide.
