Entrepreneurship Development Dr. J.D. Wadate I Er. Rahul Wadichar I Dr. Mukul Burghate Entrepreneurship is a discipline with a knowledge base theory. It is an outcome of complex socio-economic, psychological, technological, legal and other factors. It is a dynamic and risky process. It involves a fusion of capital, technology and human talent. Entrepreneurship is equally applicable to big and small businesses, to economic and non-economic activities. Entrepreneurship lies more in the ability to minimize the use of resources and put them to maximum advantage. Without any awareness of quality and desire for excellence, consumer acceptance cannot be achieved and sustained. Above all, entrepreneurship today is the product of teamwork and the ability to create, build and work as a team. The entrepreneur is the maestro of the business orchestra, wielding his baton to which the band is played. It is in this context, a study Material on introduction to the subject 'Entrepreneurship Development' is presented to the students of Professional Post-Graduate MBA degree. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the authors to assist the students by way of providing Study Material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In-depth knowledge.
