Amplifying with Vacuum Tubes

Carl Gauss 2018-07-13 Vacuum

tube fundamental circuit

design written for the novice

interested in vacuum tube

amplifier construction. A brief

concise book covering several

factors of circuit design

including bias requirements,

voltage gain requirements and

power supply requirements. To

help understand circuit

operation rather than use

traditional schematic drawings

pictorial illustrations are used.

In several sections circuit

operation is demonstrated

using illustrations along with a

vacuum tube breadboard.

Experiments are used to

correlate circuit design to

actual working circuits. Circuit

calculations involving

fundamental electronic

formulas can be performed

using a standard twelve digit

calculator. Examples of how to

solve calculations are provided.

Basic electronic knowledge of

voltage, current and ohms law

related to vacuum tube circuit

design is included where

appropriate. The 70+ pages of

circuit design contain enough

information to design high

quality vacuum tube amplifier

circuits. The last few pages of

the book have related

information including how to

use sound pressure levels to

determine amplifier power

required to produce desired

loudness.

Resounding the Rhetorical Byron Hawk 2018-07-31

Resounding the Rhetorical offers an original critical and theoretical examination of composition as a quasi-object. As composition flourishes in multiple media (digital, sonic, visual, etc.), Byron Hawk seeks to connect new materialism with current composition scholarship and critical theory. Using sound and music as his examples, he demonstrates how a quasi-object can and does materialize for communicative and affective expression, and becomes a useful mechanism for the study and execution of composition as a discipline. Through careful readings of Serres, Latour, Deleuze, Heidegger, and others, Hawk reconstructs key concepts in the field including composition, process, research, collaboration, publics, and rhetoric. His work delivers a cutting-edge response to the state of the field, where it is
