Beyond the Frontier - Leviathan Jack Campbell 2015-05-05 Two Syndicate World star systems have fallen prey to a mysterious fleet of warships controlled entirely by artificial intelligence. Geary knows that the warships were developed by his government to ensure security, but malfunctioned. If the Syndics learn the truth, the war with the Alliance will resume with a vengeance. Lost Fleet Jack Campbell 2015-05-05 Two Syndicate World star systems have fallen prey to a mysterious fleet of warships--a fleet controlled entirely by artificial intelligence--that is now

targeting Alliance space. The warships are no mystery to Geary. They were developed by his government to ensure security, but malfunctioned. If the Syndics learn the truth, the war with the Alliance will resume with a vengeance. As the government attempts to conceal the existence of the A.I. warships--and its role in their creation--Geary pursues them, treading a fine line between mutiny and obedience. But it soon becomes clear that his fleet is no match for the firepower of the machine-piloted armada. With the help of the Dancer species of aliens, Geary has tracked the A.I. ships to their secret base in the supposedly mythical Unity Alternate star system where his fleet, the last hope of the Alliance's future, will end the conflict at any cost.

The Lost Stars: Shattered Spear Jack Campbell
2016-05-03 The New York Times bestselling author of *The Lost Fleet* returns to the “strong saga”* of a rebellion against a totalitarian regime and the determination of two people to create a better future in the farthest reaches of the colonized galaxy... The Syndicate Worlds continue to splinter as more star systems pledge allegiance to President Gwen Icení, General Artur Drakon, and the new government they’re establishing at Midway. But the toxic legacy of Syndicate rule continues to undermine their efforts as the rebels encounter difficulty trusting one another and believing their new leaders’ promises of freedom from tyranny. Before Icení and Drakon can put their house in order, they

must deal with an even greater threat. An enigma warship has appeared and vanished near a Syndic colony. If the aliens are capable of jumping into other human-occupied star systems, then billions of people could be vulnerable to a hostile invasion fleet anywhere they choose to strike. But an even greater vulnerability lies with Icení and Drakon, as a once-trusted adviser-turned-saboteur plans revenge... *Genre Go Round Reviews
