*Tell Me a Story* Anthony Tate Fulton 2017-09-25 Stories have great power. This book attempts to harness that power to help students grow and develop as writers. It argues that stories and narratives can be utilized in the composition classroom, specifically first-year composition (FYC) to break down barriers. Throughout a given semester, stories and narratives can help students in composition courses to overcome academic, personal, and creative barriers, establishing a space for developing as writers and thinkers. Providing theoretical approaches, practical methods, and implications for using stories in FYC, this book explores the versatility of stories as teaching tools.

**Writing Theology Well** Lucretia B. Yaghjian 2006-11-24 In its creative integration of the disciplines of writing, rhetoric, and theology, *Writing Theology Well* provides a standard text for theological educators engaged in the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it will also encourage excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts.

*Writing Theology Well 2nd Edition* Lucretia B. Yaghjian 2015-09-24 A working guide for students conducting theological writing and research on theology and biblical studies courses, this book integrates the disciplines of writing, rhetoric, and theology, to provide a standard text for the teaching and mentoring of writing across the theological curriculum. As a theological rhetoric, it also encourages excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers, preachers, and communicators in a variety of ministerial and professional contexts. This 2nd Edition includes new chapters on 'Writing Theology in a New Language', which explores the linguistic and cultural challenges of writing theology well in a non-native language, and 'Writing and Learning Theology in an Electronic Age', addressed to distance learning students learning to write theology well from online courses, and dealing with the technologies necessary to do so.

**Higher Education Accessibility Behind and Beyond Prison Walls**

McMay, Dani V. 2020-04-17 Numerous studies indicate that completing a

college degree reduces an individual's likelihood of recidivating. However, there is little research available to inform best practices for running college programs inside jails or prisons or supporting returning citizens who want to complete a college degree. Higher Education Accessibility Behind and Beyond Prison Walls examines program development and pedagogical techniques in the area of higher education for students who are currently incarcerated or completing a degree post-incarceration. Drawing on the experiences of program administrators and professors from across the country, it offers best practices for (1) developing, running, and teaching in college programs offered inside jails and prisons and (2) providing adequate support to returning citizens who wish to complete a college degree. This book is intended to be a resource for college administrators, staff, and professors running or teaching in programs inside jails or prisons or supporting returning citizens on traditional college campuses.

*Practical Considerations for Adaptive Trial Design and Implementation* Weili He 2014-10-15 This edited volume is a definitive text on adaptive clinical trial designs from creation and customization to utilization. As this book covers the full spectrum of topics involved in the adaptive designs arena, it will serve as a valuable reference for researchers working in industry, government and academia. The target audience is anyone involved in the planning and execution of clinical trials, in particular, statisticians, clinicians, pharmacometricians, clinical operation specialists, drug supply managers, and infrastructure providers. In spite of the increased efficiency of adaptive trials in saving costs and time, ultimately getting drugs to patients sooner, their adoption in clinical development is still relatively low. One of the chief reasons is the higher complexity of adaptive design trials as compared to traditional trials. Barriers to the use of clinical trials with adaptive features include the concerns about the integrity of study design and conduct, the risk of regulatory non-acceptance, the need for an advanced infrastructure for complex randomization and clinical supply scenarios, change management for process and behavior modifications, extensive

resource requirements for the planning and design of adaptive trials and the potential to relegate key decision makings to outside entities. There have been limited publications that address these practical considerations and recommend best practices and solutions. This book fills this publication gap, providing guidance on practical considerations for adaptive trial design and implementation. The book comprises three parts: Part I focuses on practical considerations from a design perspective, whereas Part II delineates practical considerations related to the implementation of adaptive trials. Putting it all together, Part III presents four illustrative case studies ranging from description and discussion of specific adaptive trial design considerations to the logistic and regulatory issues faced in trial implementation. Bringing together the expertise of leading key opinion leaders from pharmaceutical industry, academia, and regulatory agencies, this book provides a balanced and comprehensive coverage of practical considerations for adaptive trial design and implementation.
