Captivate, Activate, and Invigorate the Student Brain in Science and Math, Grades 6-12

John Almarode 2013-04-02 Banish boredom once and for all! If your STEM lessons are falling on disinterested ears, it's time to mix things up. What you need are more engaging, brain-based science and math strategies to captivate your students' attention, activate their prior knowledge, and invigorate their interest.

Blending current research on the student brain with practical methods for teaching science and math, John Almarode and Ann M. Miller identify six essential "ingredients" in a recipe for student success. In their book you'll discover A customizable framework you can use right away Classroom-ready, content-specific attention grabbers Overt and covert strategies to boost behavioral, emotional, and cognitive engagement Techniques for making relevant connections that maximize retention With this

new approach to captivating STEM lessons, you'll energize classroom time and keep your students on task and engaged--every day. "This book links a wealth of best practices in lesson design to the latest research on how the brain learns new information."--Edward C. Nolan, PreK-12 Content Specialist, MathematicsMontgomery County Public Schools, Rockville, MD "This book is a must-read for teachers of math or science who want to increase student achievement and create meaningful learning experiences!"--Melissa Miller, Science InstructorLynch Middle School, Farmington, AR

Bringing Project-Based Learning to Life in Mathematics, K-12

Maggie Lee McHugh 2023-04-22 This book offers next level instruction in project-based learning (PBL). It provides the whole PBL game plan designed by an experienced, award-winning teacher and researcher. Readers will find need-to-know questions to open each chapter; student and educator vignettes to identify stumbling blocks and successes; PBL Plus Tips that identify those small steps teachers can make to gradually shift toward PBL; and Your Turn prompts to actively connect ideas to your practice.

Contexts of Teaching Jesus Garcia 2001 This unique new book enters into the middle and high school teaching methods market with an intimate, first-person approach, and an emphasis on reflective teaching. Reader, biography, teaching philosophy, and portfolio activities make this a practical book rich in applications. Teaching is portrayed as a process of ongoing

learning, growth and development—and a strong emphasis is placed on multiculturalism and diversity. While most books tend to take a more traditional, skills-based approach, *Contexts of Teaching* presents teaching methods from a constructivist, inquiry perspective consistent with current educational trends. Chapter topics include Knowing Middle and High School Students, Rethinking Classroom Management, considering Curriculum, planning instruction, Selecting Instructional Materials, Teaching with Technology, Implementing Instruction: Strategies and Methods, Assessing Student Learning, Understanding the Role of Community, Making a Difference in Today's Classrooms, and Reflecting for Professional Renewal. For teachers of middle and high school students.

Getting Ready for College, Careers, and the Common Core David T. Conley 2013-10-07 Create programs that prepare students for college, careers, and the new and challenging assessments of the Common Core State Standards Written for all educators but with an emphasis on those at the secondary level, this important resource shows how to develop programs that truly prepare students for both the Common Core assessments and for college and career readiness. Based on multiple research studies conducted by Conley as well as experience he has gained from working with dozens of high schools that succeed with a wide

range of students, the book provides specific strategies for teaching the CCSS in ways that improve readiness for college and careers for the full range of students. Draws from research-based models for creating programs for high school students that will ensure readiness for tests and for college and beyond Includes strategies and practices for teachers to help students develop postsecondary preparedness Is the third in a series of books on readiness written by David Conley, including *College Knowledge and College and Career Ready Teachers* can use this valuable resource to understand the "big picture" behind the Common Core State Standards, how to teach to them in ways that prepare students for new, challenging assessments being implemented over the next few years and, more importantly, how to help all students be ready for learning beyond high school.
