A Supplement to the Oxford English Dictionary: H-N R. W. Burchfield 1972 These volumes replace the 1933 Supplement to the OED. The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary -- that is, between 1884, when the first fascicle of the letter A was published, and 1928, when the final section of the Dictionary appeared -- together with accessions to the English language in Britain and abroad from 1928 to the present day. Nearly all the material in the 1933 Supplement has been retained here, though in revised form (Preface).

The Fairchild Dictionary of Fashion 3rd Edition Charlotte Mankey Calasibetta 2003 Finding definitions for fashion is easier than ever. The Fairchild Dictionary of Fashion, 3rd Edition, defines more than 15,000 fashion terms, including

apparel, accessories, and their components; historical and textile terms that relate to contemporary fashion; and the language of the fashion business. Its organization of 51 broad categories, such as activewear, blouses and tops, clothing, construction details, footwear, headwear, jewelry, laces, necklines, shirts, skirts, and waistlines, promotes comprehension of related terms. Categories are fully cross-referenced to the alphabetical listing. Includes terms not readily found in ordinary dictionaries and pronunciation guides for foreign words. An appendix of designers includes emerging leaders. Lavish illustrations by Bina Abling enhance definitions, capturing both the details and style of fashion. Labeled "anatomical" drawings show how the parts of fashion items fit together. Alphabetical page tabs add to the ease of use. This dictionary is the ideal

reference for designers, fashion media, instructors, students, historians, and fashion enthusiasts.

Hamptons Sixth Edition Suzi

Forbes Chase 2010-06-14 Visit

New York's Hamptons, where miles of spectacular white sand beaches and sea grass-covered dunes dazzle visitors; where picturesque windmills provide evidence of an agrarian past; and many Native American and Dutch place names still survive, offering clues to the ethnic makeup of the area's population. Once home to occupying British troops, bootleggers, and whaling captains; longtime home of fishermen, artists, and duck farmers, the Hamptons are also known as the playground of the wealthy, with fabulous shopping, dining, and amenities, but don't be fooled: there's something for everyone in this lovely locale that's so close to New York City but a world away--Cover.

This practical text takes students step-by-step through the preproduction processes of apparel product development: planning, forecasting, fabricating, developing silhouettes and specifications, pricing and sourcing. It demonstrates how these processes must be coordinated to get the right product to retail when customers want it and at a price they are willing to pay. Based on consultations with some of the most successful and innovative firms in the fashion business, the text covers the evolving partnerships among textile suppliers, product developers, manufacturers, and retailers as they work to develop apparel
