Performance Marketing: Explained So Simply, Even a 10-Year-Old Could Run Ads Sanjay Patil 2026-02-23 Are you tired of marketing books that make you feel stupid? You open a marketing book expecting clarity — and walk away more confused than before. Filled with complicated frameworks, Western examples, and words that require a glossary. Written for people who already work in agencies. Not for beginners like you. This book is the opposite of that. Performance Marketing: Explained Simply was written for Indian creators, small business owners, freelancers, and students who want to understand paid advertising from absolute zero — without expensive courses or confusing YouTube rabbit holes. The secret? Fictional characters. Every concept in this book is taught through relatable fictional characters based in everyday Indian settings — a chai stall, a cricket ground, a dental clinic, a farm, a classroom, a saree shop, a gym, a fashion studio. These characters do not exist in real life. They exist to make learning feel human. Because when you picture Raju the chai seller trying to figure out why his ad got 10,000 views but zero sales — suddenly CTR and conversion rate are not boring numbers anymore. They are his problem. And you want to solve it with him. What You Will Learn: • What Performance Marketing actually is — and why it is better than guessing • The 8 key metrics every advertiser must know: CTR, CPC, CPM, ROAS, CPA, CVR, AOV, LTV • How Meta Ads and Google Ads work — step by step • How to build a marketing funnel from awareness to purchase • How to target the right audience and stop wasting money • How to retarget people who did not buy the first time • How to scale a winning ad without killing its performance • Common mistakes beginners make — and how to avoid each one This is not theory pulled from foreign textbooks. Every example uses Indian prices, Indian platforms, Indian problems — explained through characters that feel like people from your own neighbourhood. By the end of this book, you will know how to set up your first paid ad, read your results, and turn ad spend into actual profit. 8 Characters. 10 Modules. 80+ Examples. 144 Pages From Zero to Your First Sale — No Jargon. No Confusion.
