**Capital Budgeting** Sandeep Goel 2015-01-26

Capital budgeting is an important part of the financial management of a business organization. It is a process that business houses use to evaluate an investment project. The decision of whether to accept or deny an

investment project is capital budgeting decision. Capital budgeting is important because it determines the long-term economic and financial profitability of any investment project. It lays down the future success of a business. Capital Budgeting aims to develop not only an understanding of the concepts of capital budgeting but also to provide its practical application to help students learn both theory and practice of capital budgeting used in the financial management of a business organization. It analyzes the capital budgeting practices of corporate enterprises in India in diverse sectors, on comparative basis, in order to provide the reader a better insight into the various issues and challenges regarding capital budgeting management.

introduction to the principles of economics integrates the public choice theme with a discussion of basic economic issues, while including analyses of domestic policies, and proposals and current global events in 2000. The Theory of Multinational Enterprises Alan M. Rugman 1996 Explores different aspects of multinational enterprises and applies the theory of internationalization to North America, Europe and Japan. The analysis is related to research on networks and strategic alliances.

**The Ethical Landscape of AI: Global Issues and Solutions** Rahman, Hakikur 2026-01-15

The ethical landscape of artificial intelligence (AI) evolves, reflecting technology's influence in modern life. From algorithmic decision-making in healthcare and finance to surveillance systems and generative tools, AI raises ethical questions about privacy, bias, accountability, and human agency. As these systems become more autonomous and integrated into societal functions, navigating the moral implications of

their development and usage becomes essential. This demands careful consideration from technologists, policymakers, and organizations to ensure AI serves humanity fairly and responsibly. The Ethical Landscape of AI: Global Issues and Solutions explores the multifaceted ethical dilemmas posed by the rapid advancement and integration of AI technologies across various sectors. It examines issues like bias, privacy, transparency, accountability, and the societal impacts of AI. This book covers topics such as human rights, misinformation, and data privacy, and is a useful resource for engineers, sociologists, business owners, academicians, researchers, and data scientists. **Multinational Business Finance** David K. Eiteman 1989 The Ninth Edition of this market leader communicates the complexities of international finance clearly and authoritatively.
