These are the questions that a group of classroom teachers set out to explore. Over the course of seven years, a group of middle, high school, college, and university teachers participated in a federally funded writing coalition project to implement innovative approaches to teaching writing. Together they developed this series of lesson plans designed to make writing both fun and an integral part of diverse curricula. "Practical" is the recurrent motif of each teaching strategy. Developed by real teachers in real classrooms, the lessons are grouped into seven categories: writing process, portfolios, literature, research, grammar, writing on demand, and media. Each lesson follows a standard format that includes purpose of the activity; necessary preparation; required props and materials; process and procedure for implementation; instructional pointers and/or possible pitfalls; and reflections from the teacher that provide "behind the scenes" insights.
