Visible Learning for

Literacy, Grades K-12

Douglas Fisher 2016-03-29

Ensure students demonstrate more than a year's worth of learning during a school year

Renowned literacy experts

Douglas Fisher and Nancy Frey work with John Hattie to apply

his 15 years of research, identifying instructional

routines that have the biggest impact on student learning, to

literacy practices. These

practices are "visible" because their purpose is clear, they are

implemented at the right moment in a student's

learning, and their effect is

tangible. Through dozens of

classroom scenarios, learn how to use the right approach at the

right time for surface, deep,

and transfer learning and which routines are most effective at each phase of learning.
