Problems and exercises in British history J. S. Lindsey (History teacher) 1912  
Introductory Chemistry for Today Spencer L. Seager 2004  
Distinguished by its superior allied health focus and integration of technology, Seager and Slabaugh's **INTRODUCTORY CHEMISTRY FOR TODAY**, Fifth Edition continues to lead the market on both fronts through numerous

allied health-related applications, examples, boxes, and a new Companion Web Site, **GOB ChemistryNow**(tm). In addition to the many resources found in **GOB ChemistryNow**, this powerful new Web site contains questions modeled after the "Nursing School and Allied Health Entrance Exams," and NCLEX-LPN "Certification Exams". The authors strive to dispel users' inherent fear of chemistry and to instill an appreciation for the role chemistry plays in our daily lives through a rich pedagogical structure and an accessible writing style that provides lucid explanations. In addition, Seager and Slabaugh's **CHEMISTRY FOR TODAY**, Fifth Edition, provides greater support in both problem-solving and critical-thinking skills. By demonstrating how this information will be important to a reader's future career and providing important career information online, the authors not only help readers to set goals but also to focus on

achieving them.

### **Modern Labor Economics**

Ronald G. Ehrenberg 2000  
Comprehensively surveying the field of labor economics, this market-leading textbook showcases both current and classic research. The authors develop the modern theory of labor market behavior, summarize empirical evidence that supports or contradicts each hypothesis, and illustrate the usefulness of various theories for public policy analysis. In addition to the policy examples woven throughout the narrative, the text offers two or more boxed examples per chapter that illustrate the application of theory in a nontraditional, business, historical, or cross-cultural context. The Seventh Edition provides updated coverage and updated references to the professional literature throughout, as well as many new boxed policy examples and new end-of-chapter numerical problems. An all-new companion Web site rounds out the teaching and learning resources of the

supplements programme.

\*Revised and updated text, including new material on international trends in unemployment rates, the net fiscal effects of recent immigration, group incentive-pay schemes, CEO compensation, union membership and bargaining coverage in several countries, and earnings inequality in the contemporary era. \*Policy application
