Back to School Subhashini Rajasekaran 2019-05-31 "Back to School: Pathways for Reengagement of Out-of-School Youth in Education" focuses on a social and global problem--200 million adolescents and youth are out of school, live in adverse life circumstances, and face multiple disadvantages. It analyzes the available evidence for what works, how, and why for reengaging and retaining these young people in education. The study further explores for whom and in what contexts the identified interventions can be effective, considering variations in both individual and contextual characteristics of the targeted youth. The synthesized findings from this review are used to build a broad theory of change which can guide efforts of policy and programming for designing contextualized interventions for education reengagement.

Divided JoAnn Jaffe 2021-10-08T00:00:00Z *Divided* looks at the last fifteen years in Saskatchewan, during which time the Saskatchewan Party government sought to reforge the province's image into the New Saskatchewan: brash, materialistic, highly competitive and aggressively partisan. In the process, a climate of polarization and hyper-partisanship swept the province into a near-perpetual state of anger and social division. These actions are not without consequences. In *Divided*, diverse voices describe the impact on their lives and communities when simmering wedge issues burst open on social media and in public spaces. The collection dives deep into the long set-up to this moment, from the colonial past to the four decades of neoliberal economics that have widened social and economic gaps across all sectors. *Divided* positions Saskatchewan as a fascinating case study of the global trends of division and provides testament to the resiliency of a vision of social solidarity against all odds.
