Tax Lien and Tax Deed Investing Thomas

Senatore 2020-04-09 Tax Lien and Tax Deed

Investing, The Proven Techniques was written to

encourage those who may have heard of this

technique to learn more to become an educated

investor. With a little bit of knowledge, some

examples of transactions and seeing how it was

done could just be what the reader needs to take

a chance and some risk to make a bit of money.

With giving a clear and concise image of what

actually tax lien and tax deed investing is and

how to carefully navigate the process, the reader

will be given a chance to make amazing profits.

With tax lien and tax deed investing, you have

the opportunity to make up to 36% interest each

year. When most people find a letter from the

tax collector in their mailbox, it usually is a bill,

but for the tax lien investor, it will be check after

check made payable to them. To even add a
bonus, if the tax lien was purchased inside their
self-directed Roth IRA, all profits would be
exempt from income taxes. With every state
holding a tax lien auction or tax deed auction,
we show the reader how to win a property and
pay pennies on the dollar. Imagine attending an
auction, and you end up the winning bidder and
now are the proud owner of that beautiful home
and you only paid 15% of the value. What if you
paid 50% of the value and now you have a home
you can live in with 50% of the value as profits?
Now many of you reading may not have the cash
and are afraid this is only for the rich people.
Well put that thought aside because the first
deal I got into, I found an investor to put up all
the money.
