The Microsoft Guide to Managing Memory with DOS 5 Dan Gookin 1991
One of the most significant features of MS-DOS 5 is its ability to effectively use extended and expanded memory to break the 640k barrier. This guide is aimed at DOS 5 users and provides information on the different types of available memory, describes how memory works and how to install it.

Resources in Education 1985

Mastering the AS/400 Jerry Fottral 1995 This textbook is an introduction to AS/400 concepts and facilities with a decidedly utilitarian approach that stresses student participation. This introductory material is a natural prerequisite to programming and database management courses. It emphasizes mastery of system/user interface, member-object-library relationship, utilization of CL commands, basic database, and program development utilities. The author is an independent consultant who teaches AS/400 programming at Kirkwood Community College in Iowa. Readers who complete the labs gain basic mastery of many essential topics, including printer spooling, library lists, creating and maintaining physical files, using logical files, using CL and DDS, working in the PDM environment, and the utilities SEU, DFU, Query, and SDA.
