Concentration Literacy Center

Kelly Hackett 2014-01-01 This easy-to-use, research-based literacy center focuses on the five areas of reading. The center contains differentiated activities to meet the needs of all learners, recommended children's literature, and a letter to build a school-home connection.

Literacy Centers Level 3 Kelly Hackett 2013-04-01 With a focus on early literacy skills, this resource supports third grade teachers in their use of centers in the classroom. Included in this book are 10 easy-to-use, research- and standards-based literacy centers that each align with essential third grade skills and that focus on the five areas of reading: Phonemic Awareness, Phonics, Fluency, Vocabulary, and Comprehension. You'll find fun, engaging designs and all the necessary materials needed

to implement each center.

Each center contains three differentiated activities to meet the needs of all learners, recommended children's literature for additional text support, and a family letter to build a school-home connection. This resource is correlated to College and Career Readiness standards.

Assessing Math Concepts Kathy Richardson 2003 Assessing math concepts is a continuum of assessments that focuses on important core concepts and related "critical learning phases" that must be in place if children are to understand and be successful in mathematics. This assessment series is based on the premise that teachers will be able to provide more effective instruction and ensure maximum learning for each of their students when they are aware of the essential steps that children move through when developing an understanding of foundational mathematical ideas. The data that is gathered and organized using the assessment tools presented here provides teachers with the information that is needed to determine precisely what children need to

learn. Students progress confidently when teachers are able to provide appropriately challenging learning experiences for individuals and classroom groups. - Back cover
