Intermediate Algebra with Early Functions

James W Hall 1995 This popular, pedagogically rich mainstream text in intermediate algebra was one of the first on the market to introduce functions early (in Chapter 2). Graphing of linear systems is also introduced early in the text, and the optional use of graphing calculators is now integrated throughout.

SAT Test Excellerator in Mathematics J. Sico 2005

College Algebra from a Unified, Laboratory Perspective Linda Becerra 1997 This text resulted from an ongoing project funded by the National Science Foundation. Intended for a one-semester, undergraduate level college algebra course, it focuses on conceptual understanding; emphasizes the rule of four and activity-based learning; includes meaningful and realistic applications; and relies on the use of technology as a skill builder and as a tool for the illumination of concepts through visualization. This text contains a rich variety of intuitive laboratory activities that encourage collaborative learning - all within a lean, coherent framework that exploits a few key recurrent unifying themes, such as functions and their representatives.
