[Writing Research Papers Across the Curriculum](#)

Susan M. Hubbuch 2004 This handbook takes students through the steps and strategies of writing research papers in many disciplines. It introduces two documentation styles for the humanities and two for the social and natural sciences. Discussions cover three types of research papers across the curriculum: reports on studies and experiments, review of literature papers, and critical papers.

Public Speaking Deanna D. Sellnow 2003 Class-tested by over forty instructors for the past three years, Deanna Sellnow's exciting new textbook provides a contemporary and comprehensive alternative approach to the public speaking process. Reflecting the latest in communication research yet fully focused on the needs of today's students, 'Public Speaking' showcases both innovative and time-tested strategies to help readers learn and apply the skills necessary to become effective public speakers. Unique coverage of "learning styles" as they apply both to the speaker and audience is highlighted and integrated throughout the text. Students are taught how to assess their own learning styles and how to apply their knowledge of different learning styles both to their analysis of audiences and in the presentation of their speeches.

in the discipline. Ideal as either a companion or stand-alone text for any psychology course that requires students to write papers. This clear and functional handbook shows how to research and write in psychology as well as improve one's overall writing ability. Covering every fundamental aspect of writing (from content to form, grammar, tracking sources of information, and citing sources), it assists students in preparing two specific types of papers: research reports and term papers. Comprehensive source—Contains all the information needed to write most types of papers typically assigned in the discipline of psychology. Provides students with a complete, one-stop, easy-to-follow reference source on how to research and write papers—including how to conduct research in psychology, how to find information on topics related to psychology, how to incorporate citations, and more. Thorough review of writing basics and formatting instructions—Addresses fundamental concerns of all writers, exploring

the reasons why we write, describing the writing process itself, and examining those elements of grammar, style, and punctuation that cause the most confusion among writers in general. Shows students the key elements of good writing and effective communication, gives students a quick and handy grammar reference source, and provides them with a detailed, easy-to-follow guide to preparing papers according to accepted formats. Creative writing assignments—Offers practical writing exercises with step-by-step instructions. Heightens students' interest in the study of psychology, and frees professors from the duty of teaching students to write the papers most often assigned in psychology classes. APA standards—Complies with all APA style requirements, displays formats for text, title pages, reference pages, tables of contents in APA format, details the APA citation system, and discusses the crucial responsibility of every psychology writer to use source material ethically. General analysis of psychology -?Helps

students obtain a deeper understanding of what constitutes the discipline of psychology so that they will become better and more educated writers on the subject.
