**CFCM Contract Management Exam Study Guide and Practice Questions 2015 (with 140+ Questions)** ExamREVIEW 2014-12-13 For CFCM, FAR is definitely the focus. Still, knowledge on commercial acquisition and contract is essential as it forms the foundation of modern contract management. You should therefore go through the sections on business procurement and commercial contracting in addition to studying FAR. In this study product we have both contracting-specific and FAR knowledge sections. You want to know that the CFCM exam has been updated to cover FAR changes of FACs 05-46 through 05-57. A special section is accordingly made available in this book to provide information on the more important changes that are deemed relevant for the exam. GB knowledge topics are no longer covered in this book.

**CFCM Exam Self-Practice Review Questions for Federal Contract Manager** Examreview 2015-12-08 We create these self-practice test questions referencing the concepts and principles currently valid in the exam. Each question comes with an answer and a short explanation which aids you in seeking further

study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to "simulate" actual exam questions. **CCCM Contract Management Exam Study Guide and Practice Questions 2015 (with 140+ Questions)** ExamREVIEW 2014-12-13 In the new CCCM exam syllabus, General Business Knowledge is no longer tested. HOWEVER, taking into account the fact that knowledge on the general business environment would help a lot in your exam study effort (even though the GB module is no longer required), GB related materials are retained in this study guide. The focus of the exam is more on the UCC Articles 1, 2 and 2a and some general commercial contracting elements. If you are new to contract management, use this study guide TOGETHER WITH other sources of information to prepare for the exam. The exam is easy only if you are experienced in contract management. If you are not, then lots of readings would have to be done.

As of the time of this writing, CCCM is in a format of 150 questions per exam. The 110 question format is no longer in use. In this study product we have both contracting-specific and business knowledge sections. We label those business knowledge sections as "General Business Knowledge" sections. These sections have information that is not on the technical aspect of contracting but is still relevant for day-to-day contract admin works. Practice Questions and Answers (there are 144 questions) are available at the end of the book.
