[Transforming the Lutheran Church in Liberia](#) Dr. Alexander Yarmie Sumo 2022-04-06 Transforming the Lutheran Church in Liberia By: Dr. Alexander Yarmie Sumo Drawing upon insights from past and present Liberian leaders, *Transforming The Lutheran Church in Liberia* offers bold proposals for reconceptualizing, sustaining, and expanding the mission and ministry of the Lutheran Church in Liberia (LCL) while offering an incisive challenge to Western Lutheran churches wishing to accompany the LCL in its mission. Providing the most comprehensive history of the LCL currently available, this volume is a valuable resource for scholars as well as for LCL members who wish to understand their own history. - Joy A. Schroeder, PhD, Professor of Church History, Trinity Lutheran Seminary at Capital University, Columbus, Ohio

Martin Luther: The preservation of the church, 1532-1546- Martin Brecht 1985 In this definitive study, the author accomplishes two important tasks. First, he contrasts the theological perspectives of earlier biographies with the results of more modern research into Luther's socio-economic context, psychological relationships, late medieval and humanist thought, university curricula, and political factors. Second, in keeping with his theory that the historical discipline "must make its results accessible to a wider audience" unless it wishes to encourage the "historical amnesia which it so often laments", the author communicates the findings of technical Reformation scholarship to the public in a comprehensible style. -- Book jacket.

Church and State in American History John Wilson 2019-10-31 *Church and State in American History* illuminates the complex relationships among the political and religious authority structures of American society, and illustrates why church-state issues have remained controversial since our nation's founding. It has been in classroom use for over 50 years. John Wilson and Donald Drakeman explore the notion of America as "One Nation Under God" by examining the ongoing debate over the relationship of church and state in the United States. Prayers and religious symbols in schools and other public spaces, school vouchers and tax support for faith-based social initiatives continue to be controversial, as are arguments among advocates of pro-choice and pro-life positions. The updated 4th edition includes selections from colonial charters, Supreme Court decisions, and federal legislation, along with contemporary commentary and incisive interpretations by modern scholars. Figures as divergent as John Winthrop, Anne Hutchinson, James Madison, John F. Kennedy, and Sandra Day O'Connor speak from these pages, as do Robert Bellah, Clarence Thomas, and Ruth Bader Ginsberg. The continuing public and scholarly interest in this field, as well as a significant evolution in the Supreme Court's church-state jurisprudence, renders this timely re-edition as essential reading for students of law, American History, Religion, and Politics.

[A Critical Evaluation of Albert Henry Newman, 1852-1933, Church Historian](#) William Glenn Jonas 1992 This study critiques and analyzes Newman's life and work as a historian. By 19th-century standards, he ranked among the best: a brilliant linguist who used this ability to become an expert on the dissenting sects throughout the history of church. He was among the pioneers in the field of Anabaptist studies, and has been classified as one of the foremost historians the Baptists ever produced.

The Gallup Poll Frank Newport 2015-11-09 This work is the only complete compilation of polls taken by the Gallup Organization, the world's most reliable and widely quoted research firm, in calendar year 2013. It is an invaluable tool for ascertaining the pulse of American public opinion as it evolves over the course of a given year, and—over time—documents changing public perceptions of crucial political, economic, and

societal issues. It is a necessity for any social science research.

[Church And State In American History](#) John F Wilson 2018-03-08 Provides the key source materialshistorical and legalfor understanding the relationship of church and state.. The controversies surrounding aid to parochial schools, blue laws, school prayer, and birth control programs have been central to the ongoing search for the proper boundary between religious and political authority in America. This concise volume features chronologically organized selections from such official documents as colonial charters, court opinions, and legislation, along with incisive twentieth-century interpretations of the issues they treat. Historical figures as diverse as John F. Kennedy, Perry Miller, Reinhold Niebhuhr, and Paul Blanshard, together with contemporary ones illuminate the interrelationships between the legal, political, and religious structures of American society. We encounter controversies every day that concern school vouchers, prayer in schools and stadiums, religious symbols in public spaces, and tax support for faith-based social initiatives as well as arguments among advocates of "pro-choice" and "pro-life" positions. These and other issues are at the center of an ongoing search for a means to delineate the interactions among religious and political authorities-- initially in the United States but increasingly in the rest of the world as well. This concise volume presents chronologically-organized chapters that include selections from documents like colonial charters, opinions of the Supreme Court and salient legislation, along with contemporary commentary, and incisive interpretations of the issues by modern scholars. Figures as divergent as John Winthrop, John F. Kennedy, and Sandra Day OConnor speak from these pages as directly as Paul Blanshard, Reinhold Niebuhr, John Courtney Murray, and Robert Bellah. *Church and State in American History* addresses the difficult relationships among the political and religious structures of our society and the emergence of an American solution to the church-state problem.

Life on the Land Carolyn J. Brown 2021-03-17 *LIFE ON THE LAND: Memoir of a Farmer's Daughter* is an inspirational look at life through the eyes of a black child during a time when "cotton was king." Carolyn J. Brown shares her story of living on a farm in Northeast Texas. She details the challenges and joys of growing up in a family of black cotton farmers who worked on their own land. Upon leaving the farm for a career in urban education, the author faced different kinds of challenges and rewards which she describes. Also included are strategies that engage children with literature in meaningful ways.

Homophobia in the Black Church Anthony Stanford 2013-03-14 This book explains how faith, politics, and fear contribute to the homophobic mindset within the Black Church and the African American community. *Homophobia in the Black Church: How Faith, Politics, and Fear Divide the Black Community* explores the various reasons for the Black Church's aversion—and the general black cultural inflexibility—toward homosexuality, same-sex marriage, and acceptance of the LGBT community. It connects black cultural resistance toward homosexuality to politics, faith, and fear; follows the trail of faith-based funding to the pulpit of black mega-churches; and spotlights how members of the black clergy have sacrificed black LGBTQ Christians for personal and political advancement. The author systematically builds his case, linking the reasons blacks are intolerant of deviation from acceptable sexual behavior to the 1960s struggle for racial equality, and tying longstanding black sexual mores to present day politics, social conservatism, and the lure of federal funding to black churches and religious and social organizations. He also spotlights specific homophobic black ministers and draws back the curtain on their alliance with White social conservatives and religious and political extremists to reveal an improbable but powerful union.
