Hiring the Best Staff for Your School Rick Jetter 2016-02-05 Hiring the Best Staff for Your School moves beyond typical hiring tools—résumés, applications, transcripts, portfolios, and artifacts—and adds effective strategies to the educational leader's recruiting and hiring toolbox. Jetter hones in on the most crucial but often neglected element of talent searches—knowing candidates' attitudes and dispositions about students, learning and instruction, leadership, and other crucial educational topics which affect schools today—and provides an innovative model for hiring the best candidates. This book presents a recruitment and hiring process that uses narratives to help school and district leaders delve deeper into understanding the emotions, ideas, reactions, and problem-solving insights of candidates. The ready-to-use resources found in this book, including real examples of the narrative process in action, dialogues, and as a training process, are easy to implement and will strengthen the hiring process to ensure that you recruit and retain the best staff members for any position within your school or district.

Scheduling Middle Level Schools Ronald D. Williamson 1998 This book investigates school schedules by examining the use of time at the middle level and discussing strategies that schools may use to provide greater flexibility to the school day. Eleven specific scheduling models are presented and described.

Complementing the models is a discussion of the factors that propel a school's investigation of alternative schedules. The manual views time as a resource and discusses ways to empower teachers to use time to make decisions. It also considers the role that adolescence plays in schedules and presents tips on how to schedule activities with this in mind. The text examines the importance of scheduling, outlines some scheduling myths, and explores the "block-time" schedule at length, considering its advantages and disadvantages for administrators, teachers, and students. Some block-time models are provided. Other kinds of schedules that are considered include alternate day, rotating, and dropped schedules. The booklet explores ways to get started on scheduling reform, offering details on planning steps, whether or not to use a computer, simulations, building the schedule, the uses of singletons and doubletons, staffing decisions, and selecting staff members. The text concludes with strategies for manipulating the schedule by challenging regularities, focusing on students, and starting small. (RJM)
