Scaffolding the Comprehension Toolkit for English Language Learners Stephanie Harvey 2011-12 "We have created the lessons in these books to help teachers give their English language learners the conceptual background and English language structures they need to collaborate fully in each Toolkit lesson." Stephanie Harvey, Anne Goudvis, Brad Buhrow, and Anne Upczak-Garcia The Comprehension Toolkit's inclusive whole-group instruction sets a high comprehension bar for ALL students. Recognizing that English language learners think as deeply and meaningfully as native speakers, Stephanie Harvey, Anne Goudvis, Brad Buhrow, and Anne Upczak-Garcia contend that rather than lowering the comprehension bar for ELLs, we should instead supply them with the language support they need to express their thoughts in an academic setting. Designed to help students unpack the vocabulary and language structures in every Toolkit lesson, the *Scaffolding The Comprehension Toolkit for English Language Learners* books meet just that need. In addition to helping your English language learners actively participate in Toolkit lessons and express what they fully comprehend, these lesson previews and extensions offer you a model for how to address ELL learning needs across the curriculum. A consistent mix of minilessons and strategies support every Toolkit lesson: Preview the Toolkit Lesson builds background knowledge and introduces concepts, vocabulary, and language structures used in the Toolkit lesson. Teach the Toolkit Lesson integrates the preview activities into the Toolkit lessons and help you optimize Toolkit practices to support ELLs. Extend the Toolkit Lesson includes explicit practice with grammar, syntax and oracy, as well as content and comprehension extensions. Every student deserves access to deep and rigorous learning. Still, some persistent myths about rigor can get in the way—such as the belief that it means more or harder work for everyone, rather than challenging and advancing students' thinking. So how can teachers get more clarity on rigor and foster more meaningful learning in their classrooms In *Rigor by Design, Not Chance*, veteran educator Karin Hess offers not only a clear vision of what makes learning deep and rigorous but also a systematic and equitable approach for engaging students of all ages in rich learning tasks. To that end, she outlines five essential teacher moves that foster thinking and learning: 1. Ask a series of probing questions of increasing complexity. 2. Build schemas in each content area. 3. Consider ways to strategically scaffold learning. 4. Design complex tasks that emphasize transfer and evidence-based solutions. 5. Engage students in metacognition and reflection throughout the learning process. From there, Hess details how to create an "actionable" assessment cycle that will drive learning forward in any classroom. This book offers a treasure trove of strategies, student "look-for" behaviors, and templates to guide teachers in their work as well as an array of rich performance-based assessments to engage and challenge students. School leaders and instructional coaches can also benefit from the variety of teacher-friendly supports to foster rigorous

learning in their schools. Ultimately, *Rigor by Design, Not Chance* helps educators empower students to take greater ownership of their own learning.

Monitor Comprehension with Intermediate Students, Grades 3-6 [With Teacher's Guide and Access Code] Anne Goudvis 2010-10 "We teach the reader, not just the reading. We want children to be lifelong learners who read actively and independently across the curriculum, who engage their minds and understand what they read. The Toolkit lessons and practices teach kids to use comprehension strategies to "read to learn" as they encounter information and ideas in a wide variety of nonfiction texts." -Stephanie Harvey & Anne Goudvis Learn how to teach nonfiction strategies to intermediate readers and how Stephanie Harvey and Anne Goudvis help students listen to their inner conversation, keep track of their thinking, and monitor their understanding as they read. Through 2 foundational books-The Comprehension Toolkit Teacher's Guide and Monitor Comprehension-and seven online video clips, Steph and Anne provide the lesson plans, teaching language, and tools you'll need to teach students how to use nonfiction reading strategies flexibly across a variety of texts, topics, and subject areas. In the Teacher's Guide, Steph and Anne explain the research and thinking behind The Comprehension Toolkit. They include an overview of the Toolkit's instructional design as well as guidelines for integrating the Toolkit into your literacy curriculum. In addition to describing how to foster an active literacy classroom, the Teacher's Guide shows how to choose texts and apply the strategies in science and social studies, and offers guidelines for assessing student work. When readers monitor their comprehension, they keep track of their thinking while reading. They listen to the voice in their head that speaks to them as the read. They notice when the text makes sense or when it doesn't. Monitor Comprehension helps you teach readers how to "fix up" their comprehension by using a variety of strategies including stopping to refocus thinking, rereading, and reading on. Throughout readers learn to monitor and use strategies to maintain understanding and repair comprehension when it breaks down. The seven accompanying video clips include a video conversation with Dr. P. David Pearson and slideshows of an active literacy classroom, an assessment overview, and strategy instruction in science and social studies. (Video clips are free for 6 months upon registration. You must register within 6 months of purchase.) Learn more about these resources and the series at www.comprehensiontoolkit.com. This pack is part of firsthand's Getting Started series. Closing the Reading Gap Alex Quigley 2020-03-31 Our pupils' success will be defined by their ability to read fluently and skilfully. But despite universal acceptance of reading's vital importance, the reading gap in our classroom remains, and it is linked to an array of factors, such as parental wealth, education and book ownership, as well as classroom practice. To close this gap, we need to ensure that every teacher has the knowledge and skill to teach reading with confidence. In *Closing the Reading Gap*, Alex Quigley explores the intriguing history and science of reading, synthesising the debates and presenting a wealth of usable evidence about how children develop most efficiently as successful readers. Offering practical strategies for teachers at every phase of their teaching career, as well as tackling issues such as dyslexia and the role of technology, the book helps teachers to be an expert in how pupils 'learn to read' as well as how they 'read

to learn' and explores how reading is vital for unlocking a challenging academic curriculum for every student. With a focus on nurturing pupils' will and skill to read for pleasure and purpose, this essential volume provides practical solutions to help all teachers create a rich reading culture that will enable every student to thrive in school and far beyond the school gates.

Monitor Comprehension with Primary Students Anne Goudvis 2010-08-10 "Children are eager to find out what's in the world and how it works. Kids are ready to work hard, not because we "motivate" them, but because they want to know stuff. As teachers we can draw on all the curiosity, energy, and comprehending experience that kids bring to school, and we systematically link it to the skills and strategies that more experienced learners use. People too often underestimate what primary kids can do. But in The Primary Comprehension Toolkit, we start high and go higher." -Stephanie Harvey & Anne Goudvis Learn how to teach nonfiction strategies to primary readers and how Stephanie Harvey and Anne Goudvis help students monitor their understanding as they respond to the words, pictures, and ideas in a text. Through 2 foundational books-The Primary Comprehension Toolkit Teacher's Guide and Monitor Comprehension-and seven online video clips, Steph and Anne provide the lesson plans, teaching language, and tools you'll need to teach students how to use nonfiction reading strategies flexibly across a variety of texts, topics, and subject areas. In the Teacher's Guide, Steph and Anne explain the research and thinking behind The Primary Comprehension Toolkit. They include an overview of the Toolkit's instructional design as well as guidelines for integrating the Toolkit into your literacy curriculum. In addition to describing how to foster an active literacy classroom, the Teacher's Guide shows how to choose texts and apply the strategies in science and social studies. Monitor Comprehension models ways to help students keep track of their thinking as they read, listen, and view. They learn to notice when the text makes sense or when it doesn't. Primary grade kids are always thinking about what they hear, see, and (if they can) read. They are noticing, wondering, making connections, and making judgments all the time. Readers, however, need to go beyond retelling and merge their thinking with the text to come up with big ideas and underlying themes. We focus on teaching young readers not just to retell, but to think about the words, the pictures, the features, and the ideas that spring from the text. The seven accompanying video clips include a video conversation with Dr. P. David Pearson; live from-the-classroom video footage; and slideshows of an active literacy classroom and strategy instruction in science and social studies. (Video clips are free for 6 months upon registration. You must register within 6 months of purchase.) Learn more about these resources and the Toolkit series at www.comprehensiontoolkit.com. SPECIFICALLY DESIGNED INSTRUCTION IN ACTION Dr. Emad N. Francis 2026-01-15 Book represents far more than a legal requirement—it is a transformative approach that empowers teachers to reach every learner with intentional precision. In today's diverse classrooms, teachers need practical, hands-on strategies that bridge the gap between theory and real implementation. This book provides exactly that. Specially Designed Instruction in Action guides educators' step by step through designing, delivering, and

documenting SDI in ways that are accessible, meaningful, and immediately applicable. Through clear frameworks, real classroom examples, and replicable tools, this book equips teachers to individualize instruction with confidence—whether they are new teachers seeking induction support or experienced educators refining their craft. Grounded in evidence-based practices and informed by decades of field experience, this resource supports teachers in planning SDI that is measurable, intentional, and focused on student growth. It is an essential guide for all educators committed to ensuring that learners with disabilities receive instruction that truly meets their needs.
