**Culture and Emotion in Educational Dynamics** Enrique H. Riquelme 2024-06-18 Culture plays a significant role in regulating emotions and influencing the dissemination of education, particularly within diverse geographic locations. However, the impact of culture on emotional dynamics within educational settings is not well understood. This is particularly important within contexts of social and cultural diversity, where schools must navigate cultural and majority emotional dynamics. The aim of this research topic is to provide a comprehensive overview of the current state of the art in the field of emotional dynamics in education, with a particular focus on the ways in which culture mediates these dynamics. The topic will also explore the problems and solutions deployed within educational contexts of cultural diversity, with a specific emphasis on school/family and community interaction.

**Dialogues in the Diasporas** Nikos Papastergiadis 1998 The author stages a series of conversations with prominent writers and artists to assess how to define cultural identity in the modern world and age of mass media and global migration.
