The Confederate Army of Northern Virginia was one of the greatest fighting formations in history: a combination of an outstanding commander and an excellent fighting force. This book offers an in-depth study of why this formation was so successful against Northern armies, which often had a greater wealth of resources and manpower and some very able leaders. Almost always outnumbered, Lee's forces were able to record a number of notable victories by giving free rein to subordinates and utilizing the fighting qualities of the army's units to the full. Also includes color and black and white maps.
