Rover Cars 1945 to 2005 James Taylor 2021-10-05 This comprehensive pictorial overview of Rover cars and car-derived vans covers the 60 years from 1945 to 2005. It describes and illustrates all of the great classic Rovers up to and including the SD1, and goes on to look at the models inherited from British Leyland that attracted Rover badges. It finishes with the models designed in conjunction with Honda; the later British-designed cars - and even the final City Rover. There is also consideration of some Rover models that were designed but, for various reasons, did not enter production, and can now only be seen as prototypes in museums. Volume 1 has 373 pages and takes tips and articles dated between 1977 and 1986., Contributions come from a mix of Land Rover mechanics and club enthusiasts and include: how these wonderful cars work; getting home if you break down in the middle of nowhere (we call it bush-mechanics, in Australia); modifications; off-road driving and recovery techniques; and many more. The wealth of knowledge from the club that was formed in 1977 is immense; it's still going strong and still has some of the original members.
