Bullying and Harassment at Work Van Fleet, David D. 2022-06-07 Bullying, harassment and other unacceptable workplace behaviors pose significant problems for organizations. This exploration of the issue notes that factors from within the organization may help determine who and why some individuals become targets and others become bullies. The authors explore different types of behaviors where managers and management, as well as employees, are the problem. Each chapter has anecdotes scattered throughout and contains a 'mini-case,' review questions, 'action' items, and two longer cases, all based on actual events. The authors present a unique framework (V-REEL®) to assist individuals and organizations in analyzing the organization's environment to try to eradicate the negative behavior forces that contribute to bad behavior.
