95 I don't find get the practical difference between Cache-Control:no-store and Cache-Control:no-cache. As far as I know, no-store means that no cache device is allowed to cache that response. In the other ... I found that Chrome responds better to Cache-Control: no-cache (100% conditional requests afterwards). "no-store" sometimes loaded from cache without even attempting a conditional request. With no-cache, it would just show the cached content, which would be probably preferred by the user (better to have something stale than nothing at all). This is why must-revalidate is intended for critical ... Aug 1, 2024 · Cache-Control: no-cache is an HTTP header directive that forces browsers and intermediate caches to validate the resource with the origin server before using a cached version. May 23, 2023 · This article demystifies HTML no cache, and it discusses and talks about how to implement and improve your performance. Nov 17, 2003 · The NOCACHE option specifies that the blocks retrieved for the table are placed at the least recently used end of the LRU list in the buffer cache when a FULL table scan is performed.
