2013-03-07 This unique A-Z

guide to central heating wiring systems provides a

comprehensive reference manual for hundreds of items

of heating and control

equipment, making it an

indispensable handbook for

electricians and installers

across the country. The book

provides comprehensive

coverage of wiring and technical specifications, and

now includes increased

coverage of combination

boilers, recently developed

control features and SEDBUK

boilers ratings, where known.

In addition to providing concise

details of nearly 500 different

boilers fuelled by electric, gas,

oil and solid fuel, and over 400

programmers and time

switches, this invaluable

resource also features numerous easy-to-understand wiring diagrams with notes on all definitive systems. Brief component descriptions are provided, along with updated contact and website details for most major manufacturers. Ray Ward has spent over 20 years as a specialist in the field of wiring domestic central heating systems and the knowledge he has gained from hands-on experience and staff training is now brought together in this comprehensive handbook.
