Stress and Emotional Health John Rush 1999-08-30 Western medicine, including psychiatry and psychology, has had a virtual monopoly of the health industry. This has led to economic incentives that literally keep people sick.

Anthropologists, because of their holistic and comparative base, are in a unique position to apply their knowledge within clinical settings. Written for anthropologists, but useful to all clinicians, Rush's book offers a new model for understanding health and illness, provides a review of techniques found in many cultures for reducing individual and system stress, and offers processes for recovering health and individual and social balance. Rush establishes a model outlining the development of emotional problems and then offers the clinical tools and techniques for helping individuals, families, and groups reduce stress and retranslate traumatic or distressing events. The reader will discover a very different view of emotional and physical stress; the approach taken is informational and anthropological in nature. From this approach arise numerous techniques designed to help clients achieve stress reduction and enhanced healing.

Advanced Ericksonian Hypnotherapy Scripts Dan Jones 2014-12-29 The first edition of 'Advanced Ericksonian Hypnotherapy Scripts' has remained a bestseller since its release in 2011. It remains essential reading on many top hypnotherapy and NLP training courses as well as recommended reading for all those interested in self-hypnosis and creating their own hypnosis audio tracks (these hypnosis scripts can be used to make commercial audio tracks as long as credit is given to the author and the book). This new and expanded 2nd edition of 'Advanced Ericksonian Hypnotherapy Scripts' contains additional hypnotic inductions and additional therapeutic scripts. Many chapters have also been expanded with new helpful content to help you be as effective as possible and to help you to understand the scripts, the hypnotic language and techniques being used, and an overview of how to do hypnotherapy. This book of

Advanced Ericksonian Hypnotherapy Scripts

more than 100 Hypnotherapy scripts is based on over 20 years of experience that the author, one of the UK's leading hypnotherapists and hypnotherapy trainers, has had working with a wide range of clients and training other professionals in hypnotherapy, psychotherapy and the healing arts. There are scripts to help people stop smoking, lose weight, lift depression, calm anxiety, sooth pain, increase performance enhancement, tackle insomnia, and many more... This isn't just another hypnosis scripts book, the author hopes that readers will use these scripts as a starting point, rather than just reciting scripts verbatim. This book shares ideas and suggestions on how to run hypnotherapy sessions from gathering information to carrying out the hypnotic work, ending a session and setting tasks. It also introduces Ericksonian hypnotic language patterns and script structure so that the reader can have a deeper understanding of what is being done in the scripts and why

they are written the way they are. This all round package makes this book a valuable resource for anyone wanting to learn more about Ericksonian hypnosis. Hypnotherapists in training can also read and analyse the hypnotherapy scripts and study the language, structure and multi-level communication used to further their skill and knowledge. The ultimate goal is to help hypnotherapists move beyond scripts to regularly performing script-free hypnotherapy sessions that occur in response to the client in front of the therapist. This hypnotherapy scripts book can help the hypnotherapist develop ideas from the scripts that can come out spontaneously once mastered. The author, Dan Jones, has had over 50,000 book purchased, over 1.5 million views of his self-hypnosis and self-help videos, and over 500,000 of his self-hypnosis and self-help mp3's downloaded. Jones has been published in magazines worldwide and appeared on UK TV and radio. He has been

described in the British press as 'Remarkable', with 'Expert Insight', and 'Personal Development Guru...the UK's Leading Personal Development Coach'. Jones has also carried out extensive research into the effectiveness of using a Humanistic Solution Focused Approach with families to reduce youth crime and anti-social behaviour and has been published in the peer-reviewed journal 'Human Givens'.

Hipnoza în psihoterapie Irina Holdevici 2017-04-18 Procesul hipnotic este unul complex și variază ca trăiri, care de-a lungul timpului și-a dovedit eficiența în psihoterapie.

Volumul de față pornește de la ideea că hipnoza reprezintă o metodă adjuvantă cu caracter dinamic în contextul terapeutic. Caracteristicile legate de identificarea unui anumit nivel de sugestibilitate, alături de manifestările trăite în stare de transă vor avea ecou diferit, în funcție de fiecare client, cât și de situația pe care acesta o aduce în cadrul terapeutic. Volumul "Hipnoza în psihoterapie" contribuie la literatura de specialitate cu rezultate ale unora dintre ultimele cercetări în domeniu, prezintă modele inedite de scenarii de inducție

hipnotică și de adâncire a transei, precum și studii de caz elocvente pentru o serie de tulburări și de conjuncturi întâlnite în cabinet. Este structurat într-o parte teoretică și o parte practică, având numeroase exemple ce atestă aplicabilitatea hipnozei în multiple afecțiuni. Ca noutate, lucrarea de față abordează hipnoza în situații precum nașterea, infertilitatea, dependențele, stima de sine scăzută, afecțiuni oncologice, tulburări de stres posttraumatic și nu numai. Volumul se adresează în primul rând specialiștilor și apoi publicului larg, cu intenția de a-l familiariza cu acest instrument de lucru activ în psihoterapie, care a fost și rămâne hipnoza. Irina Holdevici este profesor universitar la Universitatea Titu Maiorescu din București, psihoterapeut și formator în domeniul psihoterapiei cognitiv-comportamentale și hipnozei clinice, psiholog clinician și psihoterapeut la clinica Eurosanity. A publicat peste 120 de studii și 30 de cărți de specialitate. În 2008 a

fost distinsă cu premiul Academiei Române „Constantin Rădulescu Motru”, pentru lucrarea "Consiliere și psihoterapie în situații de criză". Barbara Crăciun este lector universitar la Universitatea Titu Maiorescu din București, psihoterapeut și formator în domeniul psihoterapiei cognitive-comportamentale și hipnozei clinice. A publicat peste 40 de articole de specialitate în reviste naționale și internaționale alături de cărți de specialitate și este redactor șef al revistei "Romanian Journal of Cognitive-Behavioral Therapy and Hypnosis".
