Study Skills Box Set Fiona McPherson 2018 A successful student uses effective strategies. This box-set includes 4 workbooks on study skills. The first looks at taking notes -- a broad category that encompasses many strategies, not simply the obvious ones such as how to format your

notes, use headings and highlighting, how to summarize, how to review your notes, but also the more complex ones of how to evaluate text to work out which strategy is appropriate, and how to ask the right questions. The second book in the series looks at the use of mnemonics in study, for when memorization of specific details is required. The third explains how to effectively revise, and cement your learning. The fourth provides an overview of how to approach your learning, and the strategies you should consider using. You can find out more about each of these books under their individual titles.
