Students in online environments face a number of challenges that could put them at a disadvantage unless they have a resource to help guide them through some of the confusing aspects of an online environment. Such challenges include the lack of understanding surrounding graduate school performance expectations, balancing graduate school and life, the inability to connect with community members and local field agencies, and various other aspects unique to an online environment. This text from Carl J. Sheperis and R.J. Davis will help students through these challenges and act as an invaluable resource.

From the best-selling family of handbooks, Rules has consistently been the best value for college writers. Now it's even more so. The Seventh Edition actually teaches students how to make better use of their handbook. With new material about how to integrate the handbook into lessons and class activities, Rules for Writers is an even more useful tool for instructors "We like Rules because it's affordable, easy to use, and flexible enough for multiple courses." — Anne Helms, Alamance Community College

Writing the Research Paper Anthony C. Winkler 2000 The rationale behind Writing the Research Paper--Pocket Guide, is essentially a simple one: the typical student reaches college having written perhaps a dozen research papers and is familiar enough with the broad convention of the form to neither need nor want a big book on the research paper. Instead, what the student needs is a handy summary of research paper protocol that can be easily consulted. All its explanations should be brief, helpful, and to the point. Its examples should be pointed and illustrative, covering major matters rather than minor ones. That, in a nutshell, is the idea behind this book.
