*Rootes Cars of the 1950s,*

*1960s & 1970s: Hillman,*

*Humber, Singer, Sunbeam &*

*Talbot* David Rowe 2021-10-05

The Rootes Group, although only achieving a 10-12 per cent market share, were the sixth largest British car manufacturer: more importantly, during the 1950s, more than half the cars they produced were exported. With every model produced from 1950 onwards featured in full colour and with detailed information - including colour schemes, optional equipment, technical specifications, plus other manufacturers' cars built using Rootes components - this

is the ultimate book for all Hillman, Humber, Singer and Sunbeam enthusiasts. Cars produced by Chrysler/Talbot and Peugeot after their acquisition of the Rootes Group are also included. This book includes hundreds of original photographs, taken by the author at many car shows over a number of years, and provides a unique pictorial history of Rootes-manufactured cars.

**Library Journal** Melvil Dewey 1964 Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

Lamborghini Murciélago

Thillainathan Pathmanathan

2021-10-22 The wedge-shaped

V12 Lamborghini flagships

were always spectacular - in

shape, sound and

performance. The Murcielago

was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murcielago in detail, while casting a look back through Lamborghini's troubled history, to understand how the Murcielago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.

### **Lotus Europa: Colin Chapman's mid-engined masterpiece** Matthew Vale

2022-04-14 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa

eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

*Anatomy of the Classic Mini*  
Mark Huthert 2020-02-21 The Mini's long production life saw many model changes, and literally thousands of component changes, making choosing and assessing the correct part for a classic Mini very difficult. This book is the result of years of research, and comprises almost 2000 photos showing these component variations, with captions explaining which Mini model and date each was originally designed for. With no German parts listed, this book is an essential volume for all restorers of classic Minis looking for true authenticity, and an invaluable reference source.

**Runways & Racers** Terry O'Neil 2022-02-07 Runways and Racers concentrates on the short transitional period,

1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be

conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.
