Fundamentals of Litigation for Paralegals Thomas A. Mauet 1996

Enlivened with color and numerous visual aids, Tom Mauet and Marlene Maerowitz's highly successful text for litigation features comprehensive material in a very teachable format. In three coherent parts---- investigating and Planning the Litigation; Pretrial Litigation; and Settlement, Trial, and Post-Trial --- trial expert Thomas Mauet and paralegal educator Marlene Maerowitz clearly and thoroughly explain the steps paralegals must follow to assist lawyers in civil lawsuits---- from initial fact gathering through post judgment proceeding. Including the latest changes in the Federal Rules of Civil Procedure, The authors discuss and demonstrate the full range of litigation skills from drafting litigation documents (motion, pleadings, discovery request) and collecting data to interviewing clients and taking witness statements. In addition To The new attractive design, Fundamentals of Litigation for paralegals, Second Edition, Features: Chapters on provisional remedies, appeals, and alternative dispute resolution numerous visual aids: chart, forms, exhibits, and more to enhance student understanding key terms highlighted throughout the text and further explained in a comprehensive glossary chapter objectives and summaries that preview and review important points. review questions to test understanding of the main concepts a litigation file, which follows and illustrates the complete litigation process including forms, complaints, etc.) for one sample case This invaluable teaching tool not only helps students master

the concepts of the litigation process, but also serves as a handy reference in practice. An updated Workbook and Instructor's Guide complete this superb package. Filled with questions and brief writing assignments, The Workbook gives students an opportunity to research statutes and become familiar with pertinent forms. The Instructor's guide provides guidance on using the text and Workbook

Fundamentals of California Litigation for Paralegals Marlene A.

Maerowitz 2007-06-22 The new edition of Maerowitz and Mauet's Fundamentals of California Litigation for Paralegals gives students a complete explanation of California specific litigation. Clearly written with the student in mind, the text makes the material accessible while the accompanying workbook and forms put theory into practice. These features make this text an appealing choice: * offers a complete understanding of the litigation process from the time the client walks into the office through trial and post-judgment, including settlements and alternative forms of resolutions * balanced approach neither oversimplifies the litigation process, nor clouds the educational course with excessive information * pedagogical aids such as bold-faced terms defined in the glossary; examples; charts and checklists; sample documents; chapter overviews and summaries; and review questions are featured throughout the text * tailored to the California rules with each chapter referencing the specific California statute where more information can be found, and California forms included throughout * provides opportunities for the instructor to pick and choose which areas to emphasize * a workbook on CD accompanies the text and includes five case scenarios based on California law along with associated Judicial Council forms to be used as practical exercises * Instructor's Manual provides answers to the questions posed in the workbook and book, as

well as a test bank of questions that include true-false, short answer and essay questions so that the instructor can choose the type of test to give. Projects for research and writing, sample forms, and suggested course outlines are also included. Changes to the Third Edition include: * chapters on motions and discovery tools have been broken down into separate sections so that they are both easier for the student to understand and digest, and easier for the instructor to teach * depositions, interrogatories, and document production have been included and demurrers, motions to strike, and summary judgment have been broken out into separate sections * more information included on litigation management systems and how to use such systems to index and retrieve documents in large cases * reflects most recent changes in the California rules. This student-friendly text offers a teachable approach to the subject of California litigation. The content is neither oversimplified nor saturated with excess information which allows for a smooth introduction. *Fundamentals of California Litigation for Paralegals, Third Edition* offers a complete understanding of the litigation process, allowing students to walk away with a firm understanding of the complete picture.

Fundamentals of Litigation for Paralegals Marlene A. Maerowitz 2002-11-26 A proven success in hundreds of classrooms nationwide, Maerowitz and Mauet's introduction to litigation features greater flexibility than the other leading texts. it covers every step of the litigation process in depth, from the moment the client walks in the door

to final settlements - yet never burdens students with needless details and digressions. The writing is friendly and intelligent - with a unique ability to clarify the reasoning behind legal procedures. The pedagogy is expertly crafted for paralegal courses, especially the case materials. They include examples and documents in the text itself, along with a complete litigation file in the appendix, and six separate case scenarios in the accompanying electronic workbook. The quality and variety of the case materials allow you to teach as you wish, rather than locking you into a single case or running scenario. One of the Most Successful Litigation Texts Ever... A complete introduction To The litigation process... covering the basic rules of litigation; investigation, case strategies and planning; pretrial steps, from pleadings to discovery; settlements, trial preparation, judgments, and alternative resolutions. An ideal balance of clarity and depth... with a brisk pace, yet sufficient detail for substantive courses and subsequent use as an academic or professional reference. Highly effective learning features... including examples, charts, checklists, overviews, review questions, and sample documents - without the cluttered pedagogy found in some texts. A litigation file appendix... providing case materials for each stage of litigation, from pleadings to settlements - designed for flexible use with chapter topics as needed. Electronic workbook with cases... includes new self-study aids and case materials, including six different case scenarios for assignments, exercises, and classroom case studies. Now Thoroughly Updated for Your 2003 Courses.... The most current coverage available... with the latest rules, procedures, examples, and references, including recent amendments To The Federal Rules of Civil Procedures New electronic and web resources... with expanded information on computer and online tools for research, case preparation, and every stage of the litigation process
