Interpreting in Nazi
Concentration Camps Michaela
Wolf 2016-07-28 This
significant new study is
concerned with the role of
interpreting in Nazi
concentration camps, where
prisoners were of 30 to 40
different nationalities. With
German as the only official
language in the lager,
communication was vital to the
prisoners' survival. While in the
last few decades there has
been extensive research on the
language used by the camp
inmates, investigation into the
mediating role of interpreters
between SS guards and
prisoners on the one hand, and
among inmates on the other,
has been almost nonexistent.
On the basis of Primo Levi's
considerations on

communication in the Nazi concentrationary system, this book investigates the ambivalent role of interpreting in the camps. One of the central questions is what the role of interpreting was in the wider context of shaping life in concentration camps. And in what way did the knowledge of languages, and accordingly, certain communication skills, contribute to the survival of concentration camp inmates and of the interpreting person? The main sources under investigation are both archive materials and survivors' memoirs and testimonials in various languages. On a different level, *Interpreting in Nazi Concentration Camps* also asks in what way the study of communication in concentration camps enhances our understanding of the ambiguous role of interpreting in more general terms. And in what way does the study of interpreting in concentration camps shape an interpreting concept which can help us to better understand the violent nature of interpreting in

contexts other than the Holocaust?
