Semi-Famous Josh Sundquist 2022-07-19 In this "laugh-out-loud funny" book (Hank Green, New York Times bestselling author), social media star and comedian Josh Sundquist takes readers on his hilarious journey to the fringes of viral stardom to discover if it's possible to be both very famous and very happy As a semi-famous internet creator, Josh Sundquist knows what it's like to chase fame, but he also knows that more fame usually means more stress. So he set out on a pseudo-scientific investigation to find out if there is any way for fame and happiness to overlap. He attempts to define the word "fame"—hint: it's harder than you'd think. He turns back time to identify the first facially-recognizable celebrity (you might know his former BFF Brutus). He digs into the numbers to debunk urban legends associated with stardom (ever heard of the 27 Club?). He talks to other semi-famous people (from K-pop sensations to former child stars) and asks them: Is this fame thing making you happy? If not, why are you doing it? If so, what's your secret? All while recounting funny stories about his own cringy fame-seeking (like his many attempts, and failures, to get onto MTV). Packed with playful diagrams, fascinating insights from celebrities, and embarrassing truths from Josh's experience with semi-fame, this is a must-read for anyone who has ever dreamed of becoming famous...or at least going viral on TikTok.

Biology Burton S. Guttman 1999 This fresh new approach to general biology integrates new research in genetics, ecology, evolution and molecular biology through four unifying conceptual themes. Concepts are covered when appropriate, in sufficient, but not overwhelming detail. The process of scientific discovery is emphasized and active learning is promoted through problem-solving exercises in every chapter.
