Preparing Every Teacher to Reach English Learners Joyce W. Nutta 2020-07-29 2013 Outstanding Book Award, American Association of Colleges for Teacher Education (AACTE) Preparing Every Teacher to Reach English Learners presents a practical, flexible model for infusing English learner (EL) instruction into teacher education courses. The editors outline the key steps involved in this approach—winning faculty support, assessing needs, and developing capacity—and share strategies for avoiding pitfalls. The central chapters feature sample courses illustrating how EL content can be incorporated into standard courses (human development, learning disabilities, and social foundations) and across subject areas and topics (math, science, social science, physical education, and classroom management). Most preservice teacher candidates report that they feel unprepared to work with English learners. This practical, flexible model for infusing EL content into teacher education will provide an invaluable resource in shaping the next generation of teachers.

Supporting Activist Practices in Education

Ramsay-Jordan, Natasha N. 2024-02-27 In today's educational landscape, a pressing issue looms: deeply entrenched within the system are the prevailing cultural norms that have historically perpetuated the dominance of white, middle-class values. This has, in turn, marginalized and stigmatized traditionally underrepresented student cultures as inherently deficient. As the United States educational system grapples with a dramatic increase in low-income, non-white, and linguistically diverse students, now is the time to confront these inequalities that undermine student achievement. This challenge has thrust teachers into the forefront, compelling them to embrace social justice practices in their classrooms as counternarratives. *Supporting Activist Practices in Education* emerges as a timely and essential solution to address this educational conundrum. Within the pages of this book, a compelling narrative unfolds—one that delves deep into the experiences of educators who actively employ teaching as a form of activism, transcending traditional norms. Teaching through activism, as defined in this volume, represents the courageous actions of educators who champion participatory citizenship for social justice within their classrooms, nurturing environments that foster critical thinking about the world. This book emphasizes the imperative of challenging and dismantling systemic injustices, and it underscores the pivotal role of social justice as a framework for effective pedagogical practices.

Collective Identity and Cultural Resistance in Contemporary Chicana/o Autobiography Juan Velasco 2016-07-28

The first book length study of this genre, *Collective Identity and Cultural Resistance in Contemporary Chicana/o Autobiography* facilitates new understandings of how people and cultures are displaced and reinvent themselves. Through the examination of visual arts and literature, Juan Velasco analyzes the space for self-expression that gave way to a new paradigm in contemporary Chicana/o autobiography. By bringing together self-representation with complex theoretical work around culture, ethnicity, race, gender, sex, and nationality, this work is at the crossroads of intersectional analysis and engages with scholarship on the creation of cross-border communities, the liberatory dimensions of cultural survival, and the reclaiming of new art fashioned against the mechanisms of violence that Mexican-Americans have endured.

Equity by Design Mirko Chardin 2020-07-20

"Our calling is to drop our egos, commit to removing barriers, and treat our learners with the unequivocal respect and dignity they deserve." --Mirko Chardin and Katie Novak When it comes to the hard work of reconstructing our schools into places where every student has the opportunity to succeed, Mirko Chardin and Katie Novak are absolutely convinced that teachers should serve as our primary architects. And by "teachers" they mean legions of teachers working in close collaboration. After all, it's teachers who design students' learning experiences, who build student relationships . . . who ultimately have the power to change the trajectory of our students' lives. *Equity by Design* is intended to serve as a blueprint for teachers to alter the all-too-predictable outcomes for our historically under-served students. A first of its kind resource, the book makes the critical link

between social justice and Universal Design for Learning (UDL) so that we can equip students (and teachers, too) with the will, skill, and collective capacity to enact positive change. Inside you'll find: Concrete strategies for designing and delivering a culturally responsive, sustainable, and equitable framework for all students Rich examples, case studies, and implementation spotlights of educators, students (including Parkland survivors), and programs that have embraced a social justice imperative Evidence-based application of best practices for UDL to create more inclusive and equitable classrooms A flexible format to facilitate use with individual teachers, teacher teams, and as the basis for whole-school implementation "Every student," Mirko and Katie insist, "deserves the opportunity to be successful regardless of their zip code, the color of their skin, the language they speak, their sexual and/or gender identity, and whether or not they have a disability." Consider Equity by Design a critical first step forward in providing that all-important opportunity.
