Accreditation Guide Canadian Council on Hospital Accreditation 1960

Patient Safety Abha Agrawal 2023-10-16 This book aims to serve as a playbook and a guide for the creation of a safer healthcare system in the contemporary healthcare ecosystem. It meets this goal through examinations of clinical case studies that illustrate core principles of patient safety, coverage of a broad range of medical errors including medication errors, and solutions to reducing medical errors that are widely applicable in many settings. Throughout the book, the chapters offer viewpoints from healthcare leaders, accomplished practitioners, and experts in patient safety. In addition to highlighting important concepts in patient safety, the book also provides a vision of patient

safety in the subsequent decade. Furthermore, it will describe what changes need to “fall into place” between now and the next 10-15 years to have that future realized. The book presents and analyzes a number of cases to illustrate the most common types of medical errors and to help readers learn the key clinical, organizational, and systems issues in patient safety. *Patient Safety*, 2nd edition, is an invaluable text for all physicians, healthcare workers, policymakers, and residents who are working towards a more equitable and effective healthcare system.

Family Practice in the Eastern

Mediterranean Region Hassan Salah

2018-10-26 This is the first book to analyze in depth the current causes of shortage of family physicians and the relative weakness of the family practice model in many countries in the Eastern Mediterranean Region. Focusing on engagement with the private health sector in scaling up family practice, the book explores why primary health care can make the difference and how it can be introduced and strengthened. Comparative experiences from around the world put the EMR in context, while the book also highlights where the EMR is special - in particular, the burden for health care of refugees and displaced persons, and the need of public-private partnerships.

A CRITICAL COMPARATIVE STUDY ON THE NATIONAL ACCREDITATION STANDARDS FOR HOSPITALS OF INDIA, AUSTRALIA, DENMARK AND SOUTH AFRICA Dr.Zuber M. Shaikh

2020-03-01 A Critical Comparative Study on the National Accreditation Standards for Hospitals of India, Australia, Denmark and South Africa
The researcher has developed and submitted “The Universal Healthcare Quality Standards for General Hospitals” as one of the objective of this research along with this thesis. It will be applicable for all the general hospitals in all continents and countries of the world. Moreover, it will be a great help for NABH, WHO and ISQua to improve the NABH Standards, to develop the global standards for all the countries of the world and to standardize the ISQua accredited national standards respectively. The Universal Healthcare Quality Standards for General Hospitals will be unique in the world which will be applicable for all the general hospitals across the globe.
