P. McKay 2010-10-13 Now from Bedford/St.  
Martin's, A History of Western Society is one of  
the most successful textbooks available because  
it captures students' interest in the everyday life  
of the past and ties social history to the broad  
sweep of politics and culture. The tenth edition  
has been thoroughly revised to strengthen the  
text's readability, heighten its attention to daily  
life, and incorporate the insights of new

scholarship, including an enhanced treatment of  
European exploration and a thoroughly revised  
post-1945 section. With a dynamic new design,  
new special features, and a completely revised  
and robust companion reader, this major  
revision makes the past memorable and  
accessible for a new generation of students and  
instructors.

*Abatement of Environmental Pollutants* Pardeep Singh 2019-08-27 *Abatement of Environmental Pollutants: Trends and Strategies* addresses new technologies and provides strategies for environmental scientists, microbiologists and biotechnologists to help solve problems associated with the treatment of industrial wastewater. The book helps readers solve pollution challenges using microorganisms in bioremediation technologies, including discussions on global technologies that have been adopted for the treatment of industrial wastewater and sections on the lack of proper management. Moreover, limited space, more stringent waste disposal regulations and public consciousness have made the present techniques expensive and impractical. Therefore, there is an

urgent need to develop sustainable management technologies for industries and municipalities. To remove the damaging effect of organic pollutants on the environment, various new technologies for their degradation have been recently discovered. - Covers bioremediation of petrochemical pollutants, such as Benzene, Toluene, Xylene, Ethyl Benzene, and phenolic compound - Includes discussions on genetic engineering microbes and their potential in pollution abatement - Contains information on plant growth promoting bacteria and their role in environment management
