How to Do Things with Rules William Twining 2010-05-20 New to English law? Need to know how rules are made, interpreted and applied? This popular and well-established textbook will show you how. It simplifies legal method by combining examples with an account of rules in general: the who, what, why and how of interpretation. Starting with standpoint and context, it identifies factors that give rise to doubts about the interpretation of a rule and recommends a systematic approach to analysing those factors. Questions and exercises integrated in the text and on the accompanying website will help you to develop skills in reading, interpreting and arguing about legal and other rules. The text is fully updated on developments in the legislative process and the judicial interpretation of statutes and precedent. It includes a new chapter on 'The European Dimension' reflecting the changes brought about by the Human Rights Act 1998.

McGowan on Alcohol Licensing Law in Scotland Stephen J. McGowan 2021-06-01 Drawing on a wealth of experience, Stephen McGowan guides you through the often-perplexing patchwork of statute, policy, convention and jurisprudence that all amount to Scottish licensing law. He book contextualises the history

and policy of the 2005 Act and its legion amendments, providing detailed analysis of post-2009 case law cross-referenced with significant legacy decisions, such as in relation to the fit and proper test or the proper purpose of the licensing function. He explores and deconstructs fundamental concepts such as licensing objectives, overprovision, causality, the licensing 'nexus' and the very nature of a Licensing Board. McGowan also delivers practical advice on the pitfalls and perils of application basics including how to complete (and assess) a premises licence application, as well as valuable insight from the front lines and conduct at hearings. There is no better guide to how Scottish alcohol licensing law works - and often does not work - in practice.
