are included with the questions to make it easier to review difficult topics. Objectives at the beginning of each chapter reinforce the goals of the textbook and set a framework for study. UPDATED content matches the new and revised material in the 5th edition of the textbook. UPDATED coloring exercises improve your retention of the material. NEW exercises are included on the endocrine system, hematocrit and blood coagulation, the preload and afterload function of the heart, identifying arteries and veins, the lymphatic system, and the components of the stomach.

*Study Guide and Workbook, an Interactive Approach for Starr and McMillan's Human Biology, Third Edition* Jane B. Taylor 1999 Asks the student to write all answers in this study guide/workbook. This workbook is interactive because it requires students to do things instead of just read more material. All questions are arranged by chapter modules so students may skip unassigned material. Each module in the

study guide refers to the page numbers of the corresponding module in the text. There is a wide variety of questions: multiple-choice questions; tables to be filled in; art to be labeled; true/false questions requiring students to write the correct answer if the statement is false; thought-provoking conceptual questions; boldfaced terms requiring a written definition; list of objectives in fill-in-the-blank format; and other types of questions.
