School Library Services in a Multicultural Society Patricia Montiel-Overall 2008 According to the preface, "in light of the growing multicultural population in the United States, twenty-first-century library services will require culturally competent librarians." For years asl has been addressing cultural issues in its official journal, "Knowledge Quest". This collection brings together articles that touch on a wide variety of issues related to culture, including: (1) cultural literacy; (2) ethnicity; (3) gender; (4) family; (5) language; and (6) technology. The nine articles from "Knowledge Quest", beginning with a column from long-time "Knowledge Quest" editor Debbie Abilock, are accompanied by new material from Patricia Montiel-Overall, Assistant Professor at the School of Information and Library Science Resources at the University of Arizona. This book contains the following: (1) Preface; (2) Introduction by Patricia Montiel-Overall; (3) *School Library Services in a Multicultural Society: The Need for Cultural Competence* (Patricia Montiel-Overall); (4) *Educating Students for Cross-Cultural Proficiency* (Homepage column) (Debbie Abilock); (5) *Transforming the Hidden Curriculum: Gender and the Library Media Center* (Hilary Crew); (6) *a Focus on Fathers: The Role of Males in Children's Literacy Development* (Steven Herb and Sara Willoughby-Herb); (7) *Gender and Racial Bias in Juvenile Computer Books* (Kay Bishop and Jennifer Bishop); (8) *Publishing Spanish-Language Books in the United States* (Philip Lee); (9) *Multicultural Mosaic: a Family Book Club* (Laurie Dias Mitchell and Elizabeth Harris); (10) *Making Space for Diverse Adolescent Male Identities in School* (Lance McCready); (11) *Knowledge: The Cornerstone to Ethnic Sensitivity* (On My Mind column) (Taghreed Alqudsi-ghabra); and (12) *Improving Computer-Use Success for Students of Diverse Backgrounds* (Lori S. The Art of Women in Contemporary China Patricia Eichenbaum Karetzky 2020-01-08 This book presents in eight chapters the work of over 75 Chinese female artists, both pictorial and poetic. Their art is viewed within a framework of eight themes. The broad topics explored include the body; life; the representation of the experience of being a woman; home and the world; a view of children and other women; clothes; social conscience; fantasy; and abstraction—nonfigurative work and its viability as a medium to express the spiritual. These themes provide several lenses through which to enjoy and compare these artists' approaches and outputs. The volume is unique in its inclusion of poetry by contemporary women whose voices articulate so many of the same concerns as the visual artists. In China, poetry has always been the prime form of artistic expression, and it remains so today. Looking at this poetry affords us a different means of appreciating the art of women in contemporary society.

What Every Medical Writer Needs to Know Robert B. Taylor 2015-08-29
This book presents must-know facts generally not covered in "How To" books about medical writing. Every medical writer, whether a beginner or veteran, needs answers to questions many might not even know to ask. How does your personality type influence your writing behavior, and what can you do to make writing easier for you? What should you ask before agreeing to co-author an article for publication or write a book chapter? What are some of the current issues regarding copyright and plagiarism that authors may face? What has research discovered about the quotations and references found in journal articles? What do you need to know about open access journals and predatory publishers? Dr. Taylor tells some surprising truths about medical publishing, including possible sources of peer review bias and some alarming influences on what ends up in print. He also relates little-known stories about renowned medical writers such as Sir William Osler, William Carlos Williams and Elisabeth Kübler-Ross and the origins of some of medicine's classic publications. *What Every Medical Writer Needs to Know* provides information vital for every health care professional who aspires to write for others to read: academicians and practicing physicians; nurses, nurse practitioners and physician assistants; and professional medical and scientific writers.
