OECD Public Governance Reviews Spain: From Administrative Reform to Continuous Improvement

OECD 2014-07-04 This comprehensive review of public governance in Spain finds that it shares with other OECD countries the need for a whole-of-government approach to reform.

Global One Health and Infectious Diseases

William E. Sander 2025-01-24 While many terms relate to One Health, the idea remains the same: to think outside a chosen area of specialty and work collaboratively as part of a team to improve health status around the world. This involves the collective effort of physicians, veterinarians, public health practitioners, ecologists, anthropologists, social workers, economists, and many others. Collectively, these are the Global One

Health practitioners. Through the lens of infectious disease, this book brings together the diverse range of topics necessary to be an effective global health practitioner at the intersection of human and animal health, particularly in developing countries. It explores what an aspiring or mid-career practitioner should be aware of when working with infectious diseases, including technical skills, cultural competency, capacity building, big data, and understanding the landscape and history of global health. Each chapter focuses on a specific area of necessary knowledge with background information, case examples, and resources to use moving forward. An important reference for upper-level undergraduate students, graduate students, and early practitioners in human, animal, and public health, this text highlights the competencies

rather than focusing on the problems in Global One Health. It provides a blueprint of areas that the reader should pay attention to, particularly in the realm of infectious diseases.

Impact of Culture on Human

Interaction Hede Helfrich 2008

Will cultural diversity inevitably result in a "clash" (antagonism) between cultural groups, or can we rise to the "challenge" of applying global standards of thought and behavior across diverse cultures? This is the main question examined in this unique book. Based on experiences and research in the context of the political, social, and economic reconstruction of the former Soviet Union, the book focuses on the risks and opportunities of intercultural cooperation and cultural diversity. The first part examines the administrative and political reforms in contemporary Russia from a comparative viewpoint. Capturing the polarities between governmental centralization and social self-organization, the contributions diagnose the roots of social conflicts in Russia and other countries and

try to identify societal characteristics that may provide opportunities for mutual transfer of knowledge between East and West. The second part analyzes universal versus culture-specific aspects of human resource management. It addresses similarities and differences in values, work motivation, and decision-making in different cultures. As well as outlining future trends of cultural divergence and cultural convergence, possible means of promoting cultural synergy and concrete examples of this in the fields of economics and education are presented and evaluated. The uniqueness of the book lies in its interdisciplinary and international perspectives: Experts in the fields of sociology, philosophy, economics, psychology, political science, and administration from Russia, Moldavia, Germany, The Netherlands, USA, China, South Korea, and Japan help to bridge the gap between different disciplines as well as

between different countries. Providing new theoretical insights as well as practical advice, this volume is of interest for a wide audience, including researchers and students of the above fields, as well as managers in business, administration, and education. *Annual World Bank Conference on Development in Latin America and the Caribbean* 1995

Performance Management

Linda Ashdown 2014-08-03 In today's competitive and challenging workplaces, it is more important than ever to get the best out of our people. Effective performance management is at the heart of organization success, delivering able, motivated workers, who are aligned to the organization's values and goals. This book takes us on a journey from a broad, holistic exploration of performance management, into a deeper "how do we do this and add real value?" approach to managing the core activities of performance management, such as objective-setting and

giving feedback. It takes a firmly practical stance, providing guidance and ideas both for human resource practitioners and line managers who want performance management to be valuable for the organization and its employees. Drawing on the author's practical experience of working in HR, this book contains case studies, interviews and activities to support the reader in applying their learning in the workplace. Performance Management is part of the brand new HR Fundamentals series, offering practical advice to HR professionals starting out in their career, completing CPD training or studying for their professional qualifications with the CIPD.

Competency Management in the Public Sector Instituut voor de Overheid 2002
Annotation Competency Management is increasingly being adopted as an approach to HRM in both the private and public sectors. This book will be of interest to both practitioners and academics as

it seeks to inform the reader about the practice of competency management in European public services. It throws light on the origins and meanings of the concept and traces the competency movement from the 1980s in the UK and USA. It links competency management to performance management and HRM and demonstrates how a competency approach can add value to all parts of an organisation. The nine country studies provide a rich insight into the practices found across the public sectors of Europe. At one end of the spectrum is Britain with its holistic approach to competency management in the Senior Civil Service and widespread use throughout the rest of the service. Belgium, the Netherlands and Finland provide further examples of recent developments and good practice. In France and Germany, however, competency management has only just appeared on the reform agenda and the reasons for this are identified. Micro

studies in Italy and Sweden provide an insight into the problems that arise when the perceptions of reformers diverge from those of managers and managed, while the study of Poland shows the problems faced by countries in transition which lack an appropriate educational sub-structure for public management and HRM.

Reviews The OECD

Reinforcing Democracy

Initiative Monitoring Report

- Assessing Progress and

Charting the Way Forward

OECD 2024-10-17 As

governments grapple with

environmental and digital

transitions and an erosion of

trust in public institutions, bold

action is needed to build

people's trust and strengthen

democracy. To this end, the

OECD launched its Reinforcing

Democracy Initiative in 2022.

This report offers an overview

of collective progress made in

OECD countries across the five

pillars of the Initiative and

their respective action plans:

combatting mis- and

disinformation; enhancing

participation, representation,

and openness in public life,

including a focus on gender

equality; stronger open

democracies in a globalised

world; governing green; and

digital democracy. In each of

these areas, the report

provides recent cross-country

indicators of progress (when

available) and highlights best practices from countries. The report draws on OECD and other data to assess progress, including the 2024 results of the OECD Survey on the Drivers of Trust in Public Institutions. It also identifies gaps in action and points to a set of common priorities for moving forward together.

Prisons and the Prisoner Shane Bryans 2001 This book is about the people who live and work in the prisons of England and Wales. It contains contributions from Prison Service staff, an ex-prisoner, academics and a pressure group and aims to give an idea of the complexity of the world of prisons and prisoners. It was written for the public, students and new practitioners in the criminal justice field. The book is in six parts. It begins by looking at the operating context including the purposes of imprisonment, the history of the prison

system, the joint working context, the structure and organisation of the Prison Service, private sector involvement and ethnic minorities and race relations policy in prisons. Part two considers the prison population as a whole and looks at distinct groups of prisoners -high-security, life-sentence, women and young people - their specific needs and management. Part three looks at the people who work in prisons. Part four examines in detail what happens in prisons. Part five looks at external monitoring and accountability. The role of the inspectorates, Prisons Ombudsman, Boards of Visitors and pressure groups are examined. The last part of the book offers a view of the future of the Prison Service. The Aims, Objectives and Principles of the Prison Service and its key performance indicators are given in the annexes.
