*Graphic Novels to Help Struggling Writers?*

Christina Voss (married Lyons) 2021-10-25

Seminar paper from the year 2010 in the subject English Language and Literature Studies - Literature, grade: A, Southern Illinois University

Carbondale (Curriculum & Instruction), language: English, abstract: In the history of teaching, different kinds of visual literacies could be shown beneficial for students; it need not be a whole novel rendered in pictures, it can start with simple letter recognition. The present study will deal with a struggling writer's experiences with graphic novels. My single case study participant is a 6th-grade, male struggling writer of African descent, born in the U.S. He is not professionally diagnosed, but has an IEP at his middle school for "executive function disorder," which officially does not exist as a "disease." His teachers have noticed that he has trouble executing written tasks, although he is perfectly able to dictate content of high quality. It seems to be not only a graphomotor dysfunction, for he can type a little better than handwrite; the main problem for him is to start a writing task, and also to finish it. As preliminary data from a year-long tutoring experience in a local Reading Clinic revealed, during which time

I worked with him first in a classroom environment for half a year, and then in my office with just two tutees present, the boy reads at 9th grade level; however, when asked to do a quickwrite in 10 minutes, he can only come up with sentences like, "Can I have a drink please?", whereas the other tutees managed to write half a page or a page of a story. His handwriting is huge, uneven, bears mechanical errors (although not enough to call him dyslexic for his age category), and so slow-paced that he cannot manage to finish a task in a given time. In clear opposition to this stands the observation that Remy has an astonishingly advanced vocabulary; when talking to him, one thinks he is much older and more mature, and very polite and well-behaved. This impression fades when one tutors him, and he exhibits unsuppressed, child-like behavior like farting and belching without embarrassment. The other participants are 28 teachers / professors who use graphic novels and took an online survey; 2 high school

English teachers who do not use graphic novels and were interviewed personally; 20 authors and illustrators, as well as scholarly reviewers of graphic novels who took their respective online surveys.

**Candymaking in Canada** David Carr  
2003-09-01 Why does Canada have such an inflated portion of the global bubble gum market? What is driving modern versions of the

old penny candy store? Candymaking in Canada takes the wrapper off Canada's thriving chocolate and sweets industry. Confectionery is a global business with remarkably regional tastes, and this book offers a first-time glimpse inside it. It's a nostalgic look at the chocolate phenomenon, the role of seasonal treats, and the importance of packaging. From the sugary highs to the low-fat lows, this is the story behind many of Canada's favourite brands in a beautifully illustrated volume.

Bubble Jordan Morris 2021-07-13 Based on the smash-hit audio serial, Bubble is a hilarious high-energy graphic novel with a satirical take on the "gig economy." Built and maintained by corporate benevolence, the city of Fairhaven is a literal bubble of safety and order (and amazing coffee) in the midst of the Brush, a harsh alien wilderness ruled by monstrous Imps and rogue bands of humans. Humans like Morgan, who's Brush-born and Bubble-raised and fully capable of fending off an Imp attack during her morning

jog. She's got a great routine going—she has a chill day job, she recreationally kills the occasional Imp, then she takes that Imp home for her roommate and BFF, Annie, to transform into drugs as a side hustle. But cracks appear in her tidy life when one of those Imps nearly murders a delivery guy in her apartment, accidentally transforming him into a Brush-powered mutant in the process. And when Morgan's company launches Huntr, a gig economy app for Imp extermination, she finds herself press-ganged into kicking her stabby side job up to the next level as she battles a parade of monsters and monstrously Brush-turned citizens, from a living hipster beard to a book club hive mind.
