Reader Response in Secondary and College Classrooms Nicholas J. Karolides 2013-04-15 This text, based on Louise M. Rosenblatt's transactional model of literature, focuses on the application of transactional reader-response theory in the classroom. It grows from frequent requests from secondary school and college teachers for teaching suggestions on how to put theory into practice. This is not a "What should I do on Monday?" cookbook, but an expression of the practice of theory in college and secondary school classrooms. The chapters portray a spectrum of strategies--including biopoems, expressive and imaginative writing, journal writing, readers' theater, role playing, and unsent letters--using as examples individual works from several genres. Recognizing that teachers who may have been trained in other theories and methodologies may be hesitant about their quite different role and expectations in the reader-centered classroom, the authors provide stepping stones to develop readiness and confidence, suggestions, and insights to ease the transition to the transactional model of teaching and learning. Pedagogical features: * An explanatory introduction to each section defines its orientation and describes the content and direction of the chapters it contains. * Invitations elicit engagement of readers with concepts, attitudes, or strategies presented in the chapters; they invite readers, as individuals or members of a small group, to consider ideas or to practice a strategy, among other activities, in order to enhance understandings. * A glossary defines key concepts and strategies discussed in the text. * A bibliography provides an extensive list of resources--books and journal articles--both theoretical and applied. New in the second edition: * Six new chapters--three deal with the roles of film-as-literature in the English classroom, and three with enhancing multicultural understandings. * Updates and revisions to several chapters that appeared in the first edition. * Invitations, new in

this edition, have been added to focus and expand readers' thinking.

The Crucible - Literature Kit Gr. 9-12 Chad Ibbotson 2016-12-14 Step back in time to 1692 in Salem, Massachusetts and experience the corruption and ignorance of the Salem witch trials. Our resource is easily customizable, allowing educators to pick and choose elements to meet their needs. Focus on vocabulary comprehension by matching words from the text to their definitions. Test student understanding of the play by asking students to fill in the dialog with the missing words from the scene. Expand critical thinking skills with short-answer opinion questions. Supplement an existing unit with in-depth writing tasks, such as evaluating Reverend Hale's waning confidence in witchcraft that takes place throughout the play. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz and answer key are also included. About the Novel: The Crucible is the award-winning play written by Arthur Miller about the Salem witch trials of 1692. One night in Salem Massachusetts, a group of girls are caught dancing in the woods by Reverend Parris. His own daughter falls into a coma soon after, and the town is ablaze with talks of witchcraft. The Reverend sends for Reverend Hale to examine the girl for witchcraft. Hale concludes that the town of Salem is in fact engulfed in witchcraft as

one by one the girls accuse other townspeople of communing with the devil. A trial ensues causing those accused to either deny these allegations, or confess, thus accusing someone else. This cycle finally culminates in the death of several innocent townsfolk. The Crucible is a historical dramatization of true events that show reputation is more important than admitting ignorance.

Teacher Identity Discourses Janet Alsup 2006-08-15 In this book, Janet Alsup reports and theorizes a multi-layered study of teacher identity development. The study, which followed six pre-service English education students, was designed to investigate her hypothesis that forming (or failing to form) a professional identity is central in the process of becoming an effective teacher. This work addresses the intersection of various types of discourse within the process of professional identity development, emphasizes that the intersection of the personal and professional in teacher identity formation is more complex than is acknowledged in typical methods classes, and accents the need for teacher educators to take steps to facilitate such integration. Specific suggestions for methods courses are presented that teacher educators can use as is or adapt to their own contexts. *Teacher Identity Discourses: Negotiating Personal and Professional Spaces* speaks eloquently to faculty, researchers, and graduate students across the field of teacher education.
