Guide to Accompany The Human Body Bruce Wingerd 2013-02-01 This Student Notebook and Study Guide, the ideal companion to Bruce Wingerd's *The Human Body*, reinvents the traditional study guide by giving students a tool to help grasp information in class and reinforce learning outside of class. Too often, students struggle to both learn the concepts presented and simultaneously record crucial information. The Student Notebook and Study Guide provides a structure for recording in-class material that parallels the text's concept presentation, and includes supplemental questions and activities for assignment outside of the classroom. A complete answer guide for both the in-class and out-of-class materials is available online.

Digestive System (Humans)

(Speedy Study Guides) Speedy

Publishing 2014-06-21 The

human digestive system works

by introducing water and

enzymes into food in order to

extract nutrients and minerals

from it. This process is assisted

by smooth, involuntary muscles

along the tract that help push

food along. All waste products

are excreted at the end of the

digestive cycle. Charts that

show the inner workings of the

digestive system make it easier

for students to visualize

precisely how the process

works. This may be easier for

some people to understand by

visualization, rather than

relying on written descriptions.
