Standards-Based Lesson Plans for the Busy Elementary School Librarian Joyce Keeling 2017-04-17 This helpful resource provides all-new tested, standard-based lessons accompanied by reproducible handouts and easy-to-follow directions. A new book by Joyce Keeling, an elementary librarian and teacher with more than two decades' experience, *Standards-Based Lesson Plans for the Busy Elementary School Librarian* presents many integrated lesson plans for students in each of the elementary grades, kindergarten through 5th grade. All lessons have been tested and refined in a school setting, and they are specifically written to match the AASL Information Literacy Standards, the McREL Compendium of Standards and Benchmarks, and the Common Core State Standards. In addition to the reproducible lesson plan worksheets, the book offers in-depth discussion of how best to collaborate to teach information literacy within the scope of common elementary school curricula.

*The School Library Program in the Curriculum* Ken Haycock 1990

*Library 101* Claire Gatrell Stephens 2015-08-26 This professional primer provides the blueprint to help you create a school library program, covering all aspects of library management such as budgeting, eBook use, purchasing, and teacher collaboration. Advice and strategies from experts in the field will help you master collection development, library administration, recruitment, and staffing. This handbook is the perfect introduction to school library management for both novice and seasoned professionals. The authors—both experienced school librarians—provide basic guidelines for overseeing an effective library program, practical examples that can be used to implement quality lessons, comprehensive coverage of key topics including daily tasks and human resource management, and ideas for the future of school library management. The provided strategies make setting up and running a program easy for professionals at any level. The second edition includes updated information on the latest trends, terminology, and technologies current in the field. The book is organized into three sections: focusing on daily operations; your role as a teacher collaborator and visionary; and methods for managing a collection. Included resource lists, sidebars, charts, and pictures offer tips and ideas for successfully implementing your plans.

Designing Digital Literacy Programs with IM-PACT Ruth V. Small 2005 Presents an introduction to designing digital literacy programs through an educational model called IM-PACT, and includes information on the theory and methods required for creating engaging lesson plans and instructional programs.

*Supporting Reading in Grades 6-12* Sybil M. Farwell 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.
