Reading, Writing, and Studying Strategies Pearl L. Seidenberg 1991

This unique program has been field tested and effectively implemented in secondary classrooms. Reading, Writing, and Studying Strategies: An Integrated Curriculum combines the teaching of reading and writing and makes the relationship between the two activities explicit for students. It also provides instructors with a teacher's script to support the effective presentation of new content. The skills and strategies that are taught in each instructional unit are fully explained, illustrated, modeled, and then reinforced with examples that students work out by following a step-by-step approach. This easy to follow text uses the same format in all of the units: lesson script, handouts, controlled practice set, and answer keys.
