Android has always been a natural fit with Arduino projects, but now that Google has released the Android Open Accessory Development Kit (the Android ADK), combining Android with Arduino to create custom gadgets has become even easier. *Beginning Android ADK with Arduino* shows how the ADK works and how it can be used with a variety of Arduino boards to create a variety of fun projects that showcase the abilities of the ADK. Mario Böhmer will walk you through several projects, including making sounds, driving motors, and creating alarm
